**Subject:** June GRT

The June GRT cash received was sufficient to finish the fiscal year over this year's budget by \$53,064 and \$1,572,789 over June of last fiscal year. The gap in purchasing value relative to the FY 07-08 benchmark closed further for the fourth straight month. We would have had to receive \$255,615 more to equal the purchasing power of June 2008. The largest increase this month was in the State Food Hold Harmless, the reason for which is unclear at this time. Oscar has indicated that he will see what he can find out from the State.

Thanks –  
Helene
