o Electronic Library of Santa Fe River Resources	LP	#2
o Increase River Flow	RT, Watershed	#3
o Water Quality Posts	TS, Sierra Club	#3
o Species Resiliency, Arroyos, Wildlife o Wildlife Issues/Beavers o FEMA flood maps awareness and community outreach education	TS, Sierra Club	#3

#### 1. Medium Term 2-3 years

ITEM	INDIVIDUAL	RATING, 1,2,3
o Beautifying the river corridor, make it a destination for visitors, adult fishing derby as a suggested event as well as identifying other community events.	ZI	#1
o Create an overarching vision that goes along with sustainability, 50-years. It could outline guiding principles.	FM	#1
o Scientific Data Base – River Commission acting as a Clearing House and disseminating information to the public. Note: Important to understand what has already been done, where is it?	LP	#1
o More signage along the river. More engagement from the community, not an expensive investment.	Chair	#2
o Improve Dialogue between Santa Fe County/City of Santa Fe. Staff did note that there is good dialogue between the city/county staff.	Chair	#1
o Document aquifer recharge from living river flow and planned releases.	Chair	#3

(Noted by Mr. Hook: Need to know where zones get recharged and how much surface water is saturated).		
It was also noted that there are also irrigation flows and storm flows. It was re-confirmed that it is living river flow.		
○ Citizen Volunteer/Monitoring	LP	#3

## 2. Long Term 3+ years

Item	Individual	Rating 1, 2, 3
○ River Commission would advocate for Integration of water management between the city/county.  Ms. McDonald made reference to the Storm Water Management Plan and the references made in this dialogue.	FM	#1
○ Explore opening the upper watershed.	LP	#1
○ WWTP reuse plan: 40% community reuse, 30% to river downstream of WWTP, 30% pipe up and release at Frenchy's	Chair	#1
○ Green Policy Improvement. (Reference is to construction along the river corridor).	ZI	#1
○ Methods to improve water quality.	PB	#1
○ 500 Year Flood Planning, (FEMA)	Chair	#2
