City of Santa Fe, New Mexico

memo

DATE: December 16, 2010
TO: John Romero, Traffic Engineering Director
FROM: Rick Devine, Engineer Supervisor *RD*
SUBJECT: LED Traffic Signal – Inventory and LED replacement costs.

All of the City's 116 traffic signals and 50+/- warning beacons are lit with LED's. The City has been installing LED's on all new traffic signals since about 2000. All of the remaining incandescent traffic signals were retrofitted with LED's in the spring of 2008. The cost of the project was about \$523,000. We now have some LED's that are about 8 years old but the majorities are spring of 2008 or newer.

We need to start to consider how we are going budget the maintenance of our LED inventory. The \$523,000 was a onetime project and we currently have not identified a budget for the upcoming LED maintenance. It is hard to say what the maintenance costs per year will be since we still have little maintenance history. We have only had a few bulbs burn out. The warranty period of all of our LED's is 5 years. The majority of our LED's will be out of warranty in the spring of 2013. Attached with this memo is a current inventory of our signal LED's. Also attached is an estimate of replacement costs. We would do the work in house. Costs are for material only. We believe that most of the LED's will last much longer than the warranty period. There are two schools of thought on how the LED's will fail.

1. After 5 years, we will see an extensive burn out. Replace all LED's older than 5 years. Replacement costs for entire inventory would be around \$538000.
2. After 5 years, we will see LED's start to burn out. The City has intersections with LED's that are 8 plus years old. We do not anticipate a mass burnout of LED's. We believe that an annual replacement may peak at around 15 to 20 percent of the total inventory. Around 2013, we should be ready to replace up to 20 percent of our LED inventory yearly. We would need to budget about \$81,000 per year at today's prices. The good news is that LED's are getting less expensive and the prices should go down further.

RECOMMENDATIONS: Consider budgeting about \$81,000 per year into an account for Traffic Signal and warning beacon LED maintenance.
