Santa Fe Concorso

City of Santa Fe, New Mexico

memo

April 15, 2014

TO: Public Safety and BQL Committee members

FROM:

Isaac J. Pino, Director

Subject: People to the Plaza Resolution

In an effort to bring people to the Plaza and provide a safer environment and increased economic development, the proposed People to the Plaza Resolution would authorize the closure of certain streets to unauthorized vehicular traffic in the Plaza area, provide for creative and evolving usage of the Plaza and increase public safety in the Plaza and Plaza periphery. Further, the resolution would require that additional opportunities for greater access to downtown parking be explored. A review of the economic effect of creating a pedestrian friendly Plaza is also directed as is a review of the effectiveness of public safety enhancements. The matters will be presented to governing body within six months of the implementation of the resolution.

The first such Plaza closures were instituted in the early 1990's. Since that time, Plaza use has evolved. During the period since those closures, there has been the introduction of many vendors and food purveyors; an increase in the number of official and specially permitted activities and events in the Plaza and the addition of a permanent bandstand (Gazebo). Within the vicinity, parking garages have been added to the SFCCC and the Railyard. There has been the development of a proposal to improve connectivity between the downtown Plaza with the Railyard Plaza by encouraging and enhancing pedestrian access between both areas.

Currently, improvements in the Plaza area are underway. The City Manager and Police Department have increased public safety personnel presence in the Plaza, downtown and Rail Yard areas. Communications are open between Buskers and the City to better understand the requirements and enforcement issues.

In preparation for the introduction of the resolution, a street closure plan and resulting circulation plan have been developed. Additionally, details of proposed changes in ADA parking have been considered. Park maintenance personnel have been consulted on the most effective and aesthetic methods to change the access to the Plaza. The attachments provided with this memo illustrate current and proposed traffic and parking modifications. For the benefit of the committees, personnel from all of the departments involved in the proposal are present for discussion and questions.
