4. APPROVAL OF MINUTES:

- Meeting of October 30, 2014

The following change was made to the Minutes of the October 30, 2014 meeting:
Under *Staff Reports – The Links Bar & Grill update*: Mr. Romero was changed to read: Mr. Gallegos.

Mr. Sanchez moved to approve the Minutes of the October 30, 2014 meeting as amended. Ms. Boggio-Montgomery seconded the motion. The motion passed unanimously by voice vote.

***9-New Business: Approval of New Driving Range Yardage Markers, donated by Dr. Jon Rudnick**

Alo Brodsky said about a year ago, he and the owner of New Mexico Golf Limited were thinking of ideas to improve the overall experience for patrons at the driving range, and they noticed that the current yardage markers are getting a little dilapidated and need an update.

He said they were thinking that it would be a neat idea to install yardage markers that have a “sculpture” aspect to them or something fun. They would like to have a feature to them that makes a sound when a golf ball hits them. The hopes are that this

would boost the usage of the driving range, and possibly get a younger crowd to the Golf Course. Dr. Rudnick drew up an idea and put together a prototype. Copies of the picture of the prototype were distributed and reviewed.

Mr. Brodsky said personally, he loves the design and thinks it will add to the overall experience on the driving range, and enrich the patron's experience. He noted that Dr. Rudnick is one of the most loyal patrons and has donated the yardage markers to the Golf Course for the driving range. He thinks this would be a fun thing for the Course.

Mr. Brodsky said they wanted to present these to the Board to get their thoughts, and hopefully the Board's approval. Dr. Rudnick will be making eight markers total and hopefully get them out on the range sometime in the next couple of months.

Mr. Brodsky mentioned that the majority of patrons who have seen these have liked them and think they are a great idea. This will also improve the yardage system and make it more accurate.

Mr. Lopez asked if there were any questions.

Ms. Boggio-Montgomery asked if they will have one for each of the 100-yard markers.

Mr. Brodsky said yes. Dr. Rudnick will make eight markers and the 50-yardage markers will have gongs.

Mr. Brodsky explained that they are considering a color-coded system.

Ms. Romero said staff is in agreement in placing the yardage markers on the driving range.

Ms. Boggio-Montgomery thought this was a fantastic idea and that the Board should approve it today, and let Mr. Brodsky and Dr. Rudnick come up with the details.

Mr. Lopez said he would entertain a motion to that affect.

Ms. Boggio-Montgomery made a motion that the Committee accepts the recommendation for the yardage markers. Mr. Jahner seconded the motion. The motion passed unanimously by voice vote.

5. COMMENTS FROM CHAIRMAN – Maurice Bonal

Chair Bonal was absent; therefore there were no comments from the Chairman.

Winter Maintenance Calendar

November- December 2014

Marty Sanchez Maintenance

November

- The Maintenance crew focused on pruning trees and mulching/cutting limbs and firewood. Mulch was applied on all bypass trails throughout the golf course.
- They applied a late season fertilizer and wetting agent to all the greens in the hopes that it would help hold moisture and provide a better spring rebound.
- They winterized the irrigation system and noted all irrigation deficiencies that will be addressed in the beginning of the new season.

December

- The crew began servicing mowers and did some selective string trimming.
- In mid-December they began working on the tables from the restaurant and completed the sanding and staining the week after Christmas. We (Geno) also sanded the bar top and finished it with two coats of polyurethane.
- The kitchen area floors were painted as well as the men's and women's bathroom floors.
- Most mowers had fluids changed.

January

- The crew started sharpening reels and bed knives and will complete the servicing of mowers and tractors.
- They also framed in the area around the air compressor do to extended periods of a frozen compressor and will insulate and cover when the rest of the materials arrive.
