It is recommended that extra days be included in the anticipated delivery date to ensure delivery is timely. The Purchasing Office is closed 12:00 p.m. to 1:00 p.m. The outside of the envelope should clearly indicate the following information:

Proposal number: '16/14/P
Title of the proposal: Modified Stage 1 Abatement Plan Franklin Ortiz Landfill

Any proposal received after the time and date specified shall not be considered. No proposing firm may withdraw a proposal within 60 days after the actual date of the opening thereof.

2. PREPARATION OF PROPOSAL

Vendors shall comply with all instructions and provide all the information requested. Failure to do so may disqualify your proposal. All information shall be given in ink or typewritten. Any corrections shall be initialed in ink by the person signing the proposal.

This request for proposal may be canceled or any and all proposals may be rejected in whole or in part, whenever the City of Santa Fe determines it is in the best interest of the city.

3. ADDENDA AND INTERPRETATIONS

Any and all such interpretations and any supplemental instruction will be in the form of written addenda to the RFP, which if issued, will be delivered to all prospective firms not later than three days prior to the date fixed for the receipt of the proposals. Failure of any proposing firm to receive any such addenda or interpretations shall not relieve such firm from any obligation under their proposal as submitted. All addenda so issued shall become part of the contract documents.

The City reserves the right to not comply with these time frames if a critical addendum is required or if the proposal deadline needs to be extended due to a critical reason in the best interest of the City of Santa Fe.

4. LAWS AND REGULATIONS

The proposing firm's attention is directed to the fact that all applicable Federal Laws, State Laws, Municipal Ordinances, and the rules and regulations of all authorities having jurisdiction over said item shall apply to the contract throughout. They will be deemed to be included in the contract the same as though herein written out in full.

5. METHOD OF AWARD

The proposal is to be awarded based on qualified proposals as per the enclosed rating system and at the discretion and consideration of the governing body of the City of Santa Fe. The selection committee may interview the top three rated proponents; however, contracts may be awarded without such interviews. At its discretion the city reserves the right to alter the membership or size of the selection committee. The City reserves the right to change the number of firms interviewed.

6. COMPLIANCE WITH CITY'S MINIMUM WAGE RATE ORDINANCE (LIVING WAGE ORDINANCE)

A copy of the City of Santa Fe Ordinance No. 2003-8, passed by the Santa Fe City Council on February 26, 2003 is attached. The proponent or bidder will be required to submit the proposal or bid such that it complies with the ordinance to the extent applicable. The recommended Contractor will be required to comply with the ordinance to the extent applicable, as well as any subsequent changes to the Ordinance throughout the term of this contract.

7. RESIDENT, LOCAL OR VETERANS PREFERENCE

INTENT AND POLICY

The city recognizes that the intent of the state resident preference statute is to give New Mexico businesses and contractors an advantage over those businesses,

policy is to give a preference to those persons and companies who contribute to the economy of the State of New Mexico by maintaining businesses and other facilities within the state and giving employment to residents of the state (1969 OP. Att'y Gen. No. 69-42). The city also has adopted a policy to include a local preference to those persons and companies who contribute to the economy of the County of Santa Fe by maintaining businesses and other facilities within the county and giving employment to residents of the county.

With acknowledgment of this intent and policy, the preference will only be applied when bids are received from in-state and county businesses, manufacturers and contractors that are within 5% of low bids received from out-of-state businesses, manufacturers and contractors (13-1-21 (A) -1-21 (F) and 13-4-2 (C) NMSA 1978).

To be considered a resident for application of the preference, the in-state bidder must have included a valid state purchasing certification number with the submitted bid.

Thus it is recommended that in-state bidders obtain a state purchasing certification number and use it on all bids, in order to have the preference applied to their advantage, in the event an out-of-state bid is submitted. In submitting a bid, it should never be assumed that an out-of-state bid will not be submitted.

For information on obtaining a state purchasing certification number, the potential bidder should contact the State of New Mexico Taxation and Revenue Department.

All resident preferences shall be verified through the State Purchasing Office. Applications for resident preference not confirmed by the state Purchasing Office will be rejected. The certification must be under the bidder's business name submitting the bid.

NON-APPLICATION-COMPETING IN-STATE BIDDERS

If the lowest responsive bid and the next responsive bids within 5% of the lowest bid, are all from the state of New Mexico, then the resident preference will not be applied and the state purchasing certification number will not be considered. To be considered an in-state bidder in this situation, the bidders must meet the definition criteria of Chapter 13-1-21 (A)(1) and Chapter 13-4-2 (A) NMSA 1978. After examining the information included in the bid submitted, the city Purchasing Director may seek additional information of proof to verify that the business is a valid New Mexico business. If it is determined by the city Purchasing Director that the information is not factual and the low responsive bid is actually an out-of-state bidder and not a New Mexico business, then the procedures in the previous section may be applied.

If the bidder has met the above criteria, the low responsive "resident" bid shall be multiplied by .95. If that amount is then lower than the low responsive bid of a "non-

resident" bidder, the award will be based taking into consideration the resident preference of 5%.

APPLICATION FOR LOCAL PREFERENCE

For the purposes of this section, the terms resident business and resident manufacturer shall be defined as set out in Section 13-1-21 NMSA 1978; the term local as applied to a business or manufacturer shall mean:

Principal Office and location must be stated: To qualify for the local preference, the principal place of business of the enterprise must be physically located within the Santa Fe County Geographic Boundaries. The business location inserted on the Form must be a physical location, street address or such. DO NOT use a post office box or other postal address. Principal place of business must have been established no less than six months preceding application for certification.

The PREFERENCE FACTOR for resident and local preferences applied to bids shall be .95 for resident and .90 for local. The preference for proposals shall be 1.10 for local.

New Mexico Resident Veteran Business Preference: New Mexico law, Section 13-1-22 NMSA 1978, provides a preference in the award of a public works contract for a "resident veteran business". Certification by the NM Department of Taxation and Revenue for the resident veteran business requires the Offeror to provide evidence of annual revenue and other evidence of veteran status.

An Offeror who wants the veteran business preference to be applied to its proposal is required to submit with its proposal the certification from the NM Department of Taxation and Revenue and the sworn affidavit attached hereto as Appendix E.

If an Offeror submits with its proposal a copy of a valid and current veteran resident business certificate, 7%, 8%, or 10% of the total weight of all the evaluation factors used in the evaluation of proposal may be awarded.

The local preference or resident business preference is not cumulative with the resident veteran business preference.

Proposals for Goods and Services. When proposals for the purchase of goods or services pursuant to Section 23 are received, the evaluation score of the proposal receiving the highest score of all proposals from those proponents in the first category listed above shall be multiplied by the Preference Factor. If the resulting score of that proposal receiving the preference is higher than or equal to the highest score of all proposals received, the contract shall be recommended to that proponent receiving the preference. If no proposal are received from proponents in

the first category, or if the proposal receiving the preference does not qualify for an award after multiplication by the Preference Factor, the same procedure shall be

followed with respect to the next category of proposals listed to determine if a proponent qualifies for award.

Qualifications for Local Preference. The Central Purchasing Office shall have available a form to be completed by all bidders/proponents who desire to apply for the local preference as a local business. The completed form with the information certified by the offeror must be submitted by the bidders/proponents with their bid or proposal to qualify for this preference.

Limitation. No offeror shall receive more than a 10% for local preference pursuant to this section on any one offer submitted. A bidder may not claim cumulative preferences.

Application. This section shall not apply to any purchase of goods or services when the expenditure of federal and/or state funds designated for a specific purchase is involved and the award requirements of the funding prohibit resident and/or local preference(s). This shall be determined in writing by the department with the grant requirements attached to the Purchasing Office before the bid or request for proposals is issued.

Exception. The City Council at their discretion can approve waiving the Local Preference requirements for specific projects or on a case by case basis if it is the City's best interest to do so.

8. PROTESTS AND RESOLUTIONS PROCEDURES

Any proponent, offeror, or contractor who is aggrieved in connection with a procurement may protest to the Purchasing Officer. The protest must be in writing and submitted within fifteen (15) days and requirements regarding protest and resolution of protests are available from the Purchasing Office upon request.

SCOPE OF SERVICES '16/14/P

The Contractor shall provide the following services for the City:

A The bidder is required to provide an UPDATED Stage I Abatement plan (S1AP) to address deficiencies identified by the New Mexico Environment Department (NMED) after review of a previous S1AP submittal. NMED presented the City with a Notice of Deficiency (NOD) letter dated November 15, 2013 that specified concerns over inadequate maintenance of the 2-foot soil cover, inadequate definition of nature and extent of waste, inadequate sampling of the vadose zone beneath the waste, insufficient characterization of the waste to groundwater contaminant pathway, and lack of long-term monitoring.

In response to the NOD, the UPDATED S1AP must address these data gaps and provide a completed site characterization in sufficient detail to develop a both a site conceptual model of the nature and extent of waste, and complete definition of the contaminant pathways in order to satisfy the deficiencies outlined by NMED. Since receipt of the NOD, the City has completed a surface geophysical survey of the landfill which provided estimates for lateral extent and thickness of waste along with suspected area of high soil moisture beneath the waste. The S1AP must incorporate the geophysical data to establish technically defensible locations for sampling of waste and/or other environmental media (soil gas, soil water, and groundwater). IN summary, The UPDATED S1AP needs to consider and include information from the following documents:

- Recent and past filings by the City to the New Mexico Environment
- Department (NMED) comments and meeting notes specific to the original S1AP submitted to NMED; with emphasis on the amended S1AP per City of Santa Fe letter dated October 3, 2014
- Interpretive results of 2014 Geophysical Survey of the Ortiz Landfill

The City expects the contractor will prepare the UPDATED S1AP no later than June 1, 2016 with specific emphasis addressing each of the issues identified in the Notice of Deficiency letter dated November 15, 2013. Upon submittal of the UPDATED S1AP to NMED, the City expects the contractor to address comments and complete a FINAL S1AP satisfactory to both the City and NMED. The City expects the FINAL S1AP will include both deliverables and schedules that clearly outline a strategy for addressing the data gaps and providing a methodology for completing characterization of the nature and extent of contamination at the former Ortiz Landfill. Sampling will likely consist of trenching designed to expose and characterize waste, borehole installations to characterize both the waste and underlying soil, soil water, soil-vapor; and siting and design/ construction of new monitoring wells, if determined to be necessary in consultation with NMED and the City. The scope of service will include the following:

- Preparation of a Site Safety and Sampling and Analysis Plan;
- Preparation of a final Ortiz Landfill Site Characterization Report documenting the findings of the sampling investigation that provides a detailed characterization of both the landfill waste source materials and contaminant pathways, with emphasis placed on the sub-waste soil and groundwater contaminant pathways and proximity to City Well Field. The Report will include an updated conceptual site model, contaminated pathway analyses, evaluation of potential for groundwater contamination and risk to nearby production wells, estimation of extent, thickness and volume of waste materials and evaluate risk to nearby receptors.
- In the event that additional site characterization is deemed necessary by either the City and/or NMED, the contractor will develop a schedule and cost to complete additional S1AP investigation activities to address data gaps.
- The contractor may be required to prepare a cost benefit analysis comparing the long-term liability to the City for performing continued S1AP monitoring, including the installation and sampling/analyses of new monitoring wells versus a proactive source removal action under immediate Stage 2 abatement which will likely involve the unearthing of buried waste, packaging and appropriate disposal through recycling and/or the transfer to a permitted landfill .
