Questions and Answers from Mandatory Pre-Bid Meeting for

RFB # 16/37/B FY 16/17 City Wide Water Utility Pavement Restoration Contract, CIP # 3052

1. Question on milling concrete curbs?

Answer – Concrete curbs will be milled the same way as concrete streets would be, typically to full depth. The Water Division has a use for the milled concrete and it will be transported to the Transportation and Distribution yard at 801 San Mateo Road, Santa Fe after removal.

2. Will there be a single or multiple awards?

Answer – There will only be a single (1) award.

3. Is there a line item for mobilization?

Answer – No figure this cost into your “Unit Price” quotes on Exhibit 1 on page 22 of the RFB.

4. How do we figure Traffic Control?

Answer – Actual Traffic Control costs will vary depending on each project. What is wanted here is the Contractor’s mark-up on the Traffic Control Sub-Contractor’s (assumed to be a Sub-Contractor) work at the site as a percentage (%) of the dollar amount that will be charged by that Sub-Contractor for the work.

5. For an Emergency Response Work Order, what about “Blue Stake” mark-outs?

Answer – All of the utility companies have an emergency locate provision as well. They will have the same responsibility to show-up to the site and mark their utilities as the Paving Contractor does to come and respond to the Water Division’s Emergency call, once the Contractor notifies them.

6. When is the last time for questions before the end of this RFB?

Answer – Per RFB section 3.2.1, page 8, all questions must be received, at least five (5) days prior to bid opening. In the interpretation of the Engineer, this means Working Days, not Calendar Days, therefore, the last day for submission of Written Questions (oral questions are not binding) is close of business, Tuesday, May 24, 2016. Questions may be e-mailed to: bchuey@santafenm.gov.
