**6. ITEMS FOR DISCUSSION AND POSSIBLE ACTION**

**A. REVIEW AND RELEASE FOR PUBLIC REVIEW OF AMENDMENT 4 TO THE FFY2016-2021 TRANSPORTATION IMPROVEMENT PLAN**

Mr. Wilson said this is part of our normal amendment cycle. He handed out a chart explaining the amendment which is incorporated herewith as "Exhibit 1."

Mr. Brasher said we have a short fall of about \$1 million for the construction of item S100590. On S100490 the request for proposals went out and responses came in. There were a number of interchanges on 599 that were prioritized. They were priorities established a number of years ago. The interchange at Jaguar is completed and the fact that it will be open soon shifts the priorities and indicates the need to restudy the priorities for interchanges. The consultant for this study has not been selected. We will be following up on the proposals. The consultant will be selected soon.

Mr. Wilson said he will work the next couple of days to finalize the details of adding the \$1 million and the prioritization study.

Mr. Mortillaro said he thought we were going to amend this to show the 5307 reallocation to the RTD.

Mr. Wilson said we can do that by administrative modification. The money is available but we have to wait for it to appear in the register for final numbers.

Mr. Wilson said we have a date of October 28<sup>th</sup> to release this for public review. You will see again at your November 14th meeting to review, comment and make a recommendation to the Policy Board. The Policy Board will approve it. If you are comfortable moving forward with these 3 items, he will work on the other two.

Mr. Romero asked on the reprioritization did the alignment study establish priorities and is that what you are reanalyzing.

Mr. Brasher said yes and to recommend the type of improvement.

Mr. Aaboe said since the CR 62 overpass was created they have been looking to see which of the two is the most dangerous. Both are at grade. There have been a number of fatalities at each one.

Mr. Romero said also Airport Road and the frontage road.

Mr. Mortillaro said regarding CR 70, in response to the fatal a year ago, DOT was going to do some improvements. What is the status of that.

Mr. Brasher said one of the alternatives was to limit left turns off the road, directional left turns, so someone could not turn left onto the interchange. Another alternative was restricting the access and get rid of all left turns off 599. We had a public meeting on that. Everyone wants an interchange. It is probably going to end up being restricted left turns and we will design that at the District possibly next year. It will make it so that you can turn left off 599 but not left onto 599 from the County Road or go across 599.

Mr. Romero said when that interchange reprioritization comes out the TIP will have to reflect it. If there is any discrepancy between the new one and the TIP we will have to roll that in.

Mr. Wilson said these are the priorities that were set originally. He showed a chart on the screen. Jaguar Road was developer driven and paid for through private development funds. The study will look at updated traffic and crash data and find out if these priorities still hold true.

Mr. Brasher said it will take into account that Jaguar is already built and ready to be connected at both ends.

Mr. Mortillaro asked does Jaguar being privately funded free up any funds.

Mr. Wilson said no, it was not a priority and would not be on this list if they had not paid for it.

Mr. Quintana said when we do the study it should reflect the safety improvements made on CR 70.

Mr. Brasher said it shifts.

Mr. Brasher said make sure it is incorporated into any models that are done.

**MOTION** A motion was made by Mr. Mortillaro, seconded by Mr. MacPherson, to recommend the amendment for release.

**VOTE** The motion passed unanimously by voice vote.

**B. RECOMMENDATION FOR APPROVAL OF MPO MEETING SCHEDULE FOR 2017**

Mr. Aune said this is an annual initiative where we present to you the meetings for next year. Typically it is the 3<sup>rd</sup> or 4<sup>th</sup> Monday that you meet but due to holidays you will see some variance from that.

**MOTION** A motion was made by Mr. MacPherson, seconded by Mr. Martinez, to recommend approval of the schedule.

**VOTE** The motion passed unanimously by voice vote.

**C. UPDATE ON TRANSPORTATION IMPROVEMENT PROGRAM PROJECTS**

Mr. Wilson reviewed the chart reflecting the TIP projects. This chart is incorporated into these minutes as "Exhibit 2."

The following comments were added to the status of the projects shown on the chart:

S100120 Mr. Aaboe said the County is working on Phase C.

S100121 Mr. Aaboe said he heard as well that DOT no longer wants to the agency on this one. Once they have the details they will come back for a TIP amendment.

S100130 Mr. Quintana said we are working on Phase D. There will be minimal impacts to traffic for the next 45 days. They will come back next Spring to do striping.

S100140 Mr. Brasher said the contractors time ran up last Thursday, but they have been given additional time to do some additional work. It will take another week to complete. It is on time and on budget. The bike trail will open in another week or so.

S100160 Mr. Brasher said the contractor is going to add some decorative

work. It should be completed by the end of month.

- S100430 Mr. Brasher said the ramp has some curves in it and merge problems that we are trying to address. It has not been studied in detail yet to determine what it will be.
- S100440 Mr. Romero said the City would like to be involved in this one.
- S100450 Mr. Brasher said this is the one that needs an additional \$1 million.
- S100520 Mr. Brasher said this project is in design. He is expecting to let it at the end of November.
- S100280 Mr. Romero said we had a walk through with the contractor. We had some landscaping conflicts. We are trying to finish E. Alameda first.
- S100281 Mr. Romero said we will be working on the cross walk improvements next month. It is going well.
- S100282 Mr. Aaboe said it is underway.
- S100390 Mr. Romero said the piles we are drilling in are half way done. All of their work is at night. There is a minimal effect on traffic. There will be some minor traffic effect when they repave it.
- S100410 Mr. Aaboe said it is going along. All 17 agencies are working together. We are close to completing the final design.
- S100470 Mr. Wilson said there are discussions between the City and DOT about who is going to be the lead agency.

## 7. MATTERS FROM THE MPO STAFF

Mr. Aune said next month we will be meeting on Monday, November 14<sup>th</sup>. Is anyone not able to make meeting.

Mr. Aaboe said he cannot attend.

Mr. Aune said he would like to recognize Edward Escudero from Tesuque Pueblo. Welcome.

**8. MATTERS FROM TCC MEMBERS**

Mr. Romero asked Councilor Harris if he had any comments.

Councilor Harris said not at this time.

**9. NEXT MEETING DATE**

**NOVEMBER 14, 2016**

**10. ADJOURN**

The meeting adjourned at 2:10 pm
