

# BICYCLE AND TRAILS ADVISORY COMMITTEE MEETING Wednesday, March 15, 2017, 5:30 p.m. – 7:30 p.m. City Hall, 200 Lincoln Ave

- 1. CALL TO ORDER
- 2. ROLL CALL
- 3. APPROVAL OF AGENDA
- 4. APPROVAL OF MINUTES FROM February 13, 2017
- 5. CITIZEN COMMUNICATIONS FROM THE FLOOR
- 6. COMMUNICATIONS FROM OTHER AGENCIES
  - a. City Trails Coordinator Report SF Conservation Trust (Tim Rogers)
  - b. St. Michael's Drive STIP Santa Fe MPO (Eric Aune)
- 7. INFORMATION, DISCUSSION & ACTION
  - a. Proposed 5-Year Capital Improvement Plan for Trails (Leroy Pacheco)
  - b. Update of Prioritized Projects in 2012 Santa Fe Bicycle Master Plan (Eric Aune, Santa Fe MPO)
  - c. Camino de los Montoyas Trail south of NM 599 (Tim Rogers, Santa Fe Conservation Trust)
- 8. BTAC SUBCOMMITTEE UPDATES
  - a. On Road Subcommittee (Joe Abbatacola)
  - b. Off-Road Trails (Frank Herdman/Ron Pacheco)
  - c. Going for the Gold (Gretchen Grogan)
- 9. STAFF COMMUNICATIONS
- 10. COMMITTEE COMMUNICATIONS
- 11. COMMUNICATIONS FROM THE CHAIR
- 12. ADJOURNMENT

Next Scheduled Meeting for BTAC is April 19, 2017. Agenda & Packet Material due no later than

April 10, 2017. Please submit via email <a href="mailto:lnpacheco@santafenm.com">lnpacheco@santafenm.com</a>

Persons with disabilities in need of accommodations, contact the City Clerk's office at (505) 955-6521 five (5) working days prior to the meeting date.

### Bicycle and Trails Advisory Committee Meeting Index March 15, 2017

# BICYCLE AND TRAILS ADVISORY COMMITTEE MEETING City Council Chambers 200 Lincoln Ave. Santa Fe March 15, 2017 – 5:30 PM – 7:30 PM MEETING MINUTES

#### 1. CALL TO ORDER

Councilor Maestas, Chair called the Bicycle and Trails Advisory Committee meeting to order at 5:32 p.m. at the City Council Chambers in Santa Fe, New Mexico. Roll call constitutes a quorum.

#### 2. ROLL CALL

Present:

Councilor Joseph Maestas, Chair Gretchen Grogan Paul Cooley Joseph A. Abbatacola James Ronald Pacheco Shelley Robinson Jennifer Wellington Frank Herdman Tomas Rivera

#### Excused:

Staff & Others Present:
Leroy Pacheco, Staff Liaison
Erick Aune, MPO
Tim Rogers, Santa Fe Conservation Trust
Margaret Alexander, Resident
Jennifer Jenkins, Land Use Consultant
Matt O'Reilly, City Asset Manager
Linda Vigil, Stenographer

#### 3. APPROVAL OF AGENDA

Mr. L. Pacheco briefly mentioned from now on any items from other agencies should be kept short for updates only, anything longer should be added as a discussion item.

**MOTION:** Mr. R. Pacheco moved to approve the agenda as presented with a second from Mr. Herdman which passed by voice vote.

#### 4. APPROVAL OF MINUTES FROM February 13, 2017

**MOTION:** Mr. Herdman moved to approve the minutes of February 13, 2017 as presented with a second from Ms. Grogan which passed by voice vote.

#### 5. CITIZEN COMMUNICATION FROM THE FLOOR

Ms. Jenifer Jenkins (130 Grant Ave., Ste. 101 Santa Fe) a land use consultant, discussed the update to the Canada de Rincon – Calle Mejia connection. She represents The Reserve Condos and they are in favor and have worked with City Staff. They are exploring an alternative and will present their idea to BTAC in May.

The Reserve is appreciative of the work being done, and the opportunity to explore an alternative. Ms. Robinson asked if there were any plans to close the connection while all planning is happening. Ms. Jenkins stated no they will not close it.

Ms. Margaret Alexander (1116 Tano del Este Santa Fe) discussed the confusion with work on County and City trails. Trails Alliance of Santa Fe works on hand built dirt trails. They generally don't cost any money to work on. There are two trails that are on the maps and planned but haven't been built. There is a connector trail from La Tierra to the dog park that can be built by them. They are ready to work on it. Also, on Ridgetop and Tano that trail needs to be rebuilt. They have the people to work on them. She would like to know the next step and if BTAC can help.

Mr. R. Pacheco stated yes BTAC can help.

Ms. Wellington stated she went out and hiked the trail to the dog park and she now sees the reason for making that trail.

Mr. Herdman discussed the trash in that area. Councilor Maestas informed Ms. Alexander that item is on later in the agenda.

Mr. L. Pacheco stated he trail into Las Estrellas is open space. He spoke to the developer seems ok to leave it open.

A discussion was held on who to contact and it was decided Ms. Alexander would contact the Parks Department since that is where the contract for volunteer trial involvement is housed.

#### 6. COMMUNICATIONS FROM OTHER AGENCIES

#### a.) City Trails Coordinator Report

Mr. Rogers provide his February report. (See Exhibit A) Mr. Rogers discussed the issue with the ATV use on the La Tierra trail. SFPD has a photo and identified the person.

Mr. R. Pacheco stated a friend of his was almost seriously injured by this person on the trail. He personally walked the trail and spoke to the folks who work on the motocross trails. He has information and will share with the Police if it is helpful.

Councilor Maestas also received a phot and sent it to the Chief of Police. Mr. Rogers stated Mr. Chris Ortiz of Parks has ideas where some boulders can be placed.

Mr. Rogers discussed research and funding for more PSA's. There is not any funds at this time.

- Mr. Rogers included in his packet the volunteer opportunities sheet with an overview.
- Mr. Rogers stated a work day in March may be in the works for trail maintenance.
- Mr. Rogers discussed the Bike and Brew, and Bike to Work Week is still underway. There was a cruise day at the Capital where members from Albuquerque came down. They rode on the Rail Trail and the underpass and Museum Hill trail.

Mr. Rogers stated there are various activities planned with the SF Watershed. Mr. Abbatacola stated there will be an impromptu on road subcommittee meeting on March 28, 2017 at 2:30 p.m. they will be meeting with John Romero.

#### b.) St. Michael's Drive STIP

Mr. Aune presented a sheet on the St. Michael's corridor. (See Exhibit B) NMDOT thought it would be best to consolidate the projects under the same control number. Mr. Aune stated the City and NMDOT are talking about how the City can take over the project.

Mr. Cooley briefly mentioned making St. Francis more bicycle friendly.

Ms. Grogan asked if there was going to be any public comment on this project. Mr. Aune stated if the City negotiates it there will be.

Mr. Matt O'Reilly stated the City has been talking to NMDOT. There is an old agreement where there are things that were proposed to be done and still haven't been done. Mr. O'Reilly stated over the last couple of years there has been several engineers given this task. The assessments being done are to get St. Michaels Dr. in better shape.

Mr. Aune reported the bike corral will be on Marcy street and delivered on Friday. It will take up 9 feet of space. The playground project will go before the Public Safety Committee. The bike rack project will have some prototypes ready for consideration for bike to work week.

Mr. Aune reported there will be bikes available for City employees to promote bike to work week.

Mr. R. Pacheco reminded Mr. Aune that Safer NM Now may have stuff for the playground project.

Ms. Grogan asked for an update on the Bike Share program. Mr. Aune stated that the Rio Metro took over the project.

Mr. Abbatacola stated the bike rack program is great. Mr. Aune stated Bike to Work Week is 5/11 to 5/21.

#### 7. INFORMATION/DISCUSSION/ACTION

- a.) Proposed 5-year Capital Improvement Plan for Trails
- Mr. L. Pacheco presented a list of the projects that are funded. (See Exhibit C) A map shows the projects

and the status.

Mr. L. Pacheco discussed the Acequia trail and the small amount left over. Mr. L. Pacheco recommends the bits left over stay in the fund but move to the shuttle ready projects.

Mr. L. Pacheco reported the bridges are ready to go behind NMSD. There was a technicality with the bid so that must go out for rebid before the end of the fiscal year. It should be ready to build this summer.

Councilor Maestas stated the important thing is to tie them the projects to the plan. The overall budget is fluctuating there are carry over funds. However, BTAC needs to go after additional money.

A discussion was held about the NW Quad trails and the funds to be budgeted by fiscal year 17. Mr. R. Pacheco asked about the La Tierra trails and the trails that already exist. If there are volunteers, can the work be done? If it is a volunteer effort they can get started.

Councilor Maestas asked about the budget surplus amount if it was programmed for the next year. Mr. L. Pacheco stated yes that is what in the works for the next fiscal year.

A brief discussion was held about the trail between Osage and Lujan Street, there is an old bridge the city tried to get an easement and improve the bridge.

#### b.) Update of Prioritized Projects in 2012 Santa Fe Bicycle Master Plan

Mr. Aune presented a flowchart of the bicycle master plan and project identification. (See Exhibit D) The MPO's intent is to create the interactive map in GIS format.

Mr. L. Pacheco stated the BTAC Committee will need to do some work with the prioritization of the projects. A discussion was held about having a point person who interfaces with City Staff directly. Perhaps even having an ad hoc subcommittee.

Councilor Maestas asked if there is a distinction on what MPO can do and what BTAC can do. Mr. Aune stated MPO is updating the plan, but the budget is limited. They are looking for creative ways to update it, potentially working with Tim Rogers. There isn't an urgency to update it, the work is all relevant and will not have to be rewritten.

- Mr. L. Pacheco stated the work will fall back into the CIP updates. The time frame is to be done by fall.
- Mr. R. Pacheco states the work can be done at the BTAC level. The members all have ideas and some of it can be done at the next few meetings.

Ms. Robinson asked at what point does it go out to the public for comment. It could result in good feedback It worked for the pedestrian master plan.

Mr. Rivera asked for clarification if the time frame of April to September is not for a new plan, but rather an update on the priorities. Mr. L. Pacheco stated that was correct.

Mr. Herdman stated different members represent certain districts, perhaps in a few meetings some time can be spent working on the list.

A discussion was held about having an event or booth set up for Bike to Work Week to get input.

Ms. Grogan discussed when there are subcommittees formed there are often slots for members of the public to join.

Mr. Aune explained that MPO is an effort of the City, County and Tesuque. If a public hearing were to be held that would have to be considered.

Mr. Abbatacola would like to see the interactive map show the projects from 5 years ago to now.

A brief discussion was held about the time frame and the CIP process. It would be helpful to have the project list.

Mr. Herdman is leaning in favor of reviewing the list at the BTAC meetings.

Councilor Maestas asked if it was possible to have the contact person be Mr. Rogers and include it in the contract they currently hold. Councilor Maestas would like Mr. L. Pacheco to be the point staff contact and work with Parks in changing the contract for Mr. Rogers.

A discussion was held about working on the baseline status of all projects at a workshop. There is also a need to discuss how to develop new projects.

Councilor Maestas would like to have Mr. L. Pacheco clarify the budget. Councilor Maestas would like the Committee to get reacquainted with the master plan by the next meeting. Councilor Maestas and Mr. L. Pacheco are working on a memo to send to the councilors.

#### c.) Camino de los Montoyas Trail South of NM599

Mr. Rogers discussed the Santa Fe Conservation Trusts plan for the area in Camino de los Montoyas to 599. (See Exhibit E)

Mr. Rogers discussed the shovel ready projects. In this proposal, there are spots for signage and there may be the need to dig bench cuts. The biggest issue right now is trash removal. Perhaps Parks can help haul it out.

A discussion was held about the funds for the NW Quad. Mr. Herdman stated he walked the proposed alignment, it makes sense to do this trail. Eventually there can be a second phase to the project.

A discussion was held about allowing some of the surplus funds to go towards a second phase.

MOTION: Mr. R. Pacheco moves to endorse the work to be done on the trail and add a phase to connect to

the dog park with funds from the surplus, Ms. Robinson seconds the motion which passed by voice vote.

A brief discussion was held about the land and the future development.

#### 8. BTAC SUBCOMMITTEE UPDATES

#### a.) On Road Subcommittee

Mr. Abbatacola stated the only update is the bike rack project which was discussed earlier.

#### b.) Off-Road Trails

Mr. Herdman discussed his concern with the ATV use on the La Tierra trail. He would like to see this item on the next agenda and perhaps invite SFPD.

#### c.) Going for the Gold

Ms. Grogan provided a memo from Bob Siqueiros regarding the application. The extension was given until August. Mr. Siqueiros has been out caring for his ill mother. He assured her he will be able to dedicate more time to it in April.

The BTAC Committee would all like to review the application before it is submitted. Ms. Grogan stated Mr. Siqueiros will try to attend the next meeting.

A discussion was held on how to count the number of people to commute to work by bike. Mr. Rivera offered help from Chainbreaker.

A brie update was given on the underpass it will be complete in late September.

#### 9. STAFF COMMUNICATION

#### 10. COMMITTEE COMMUNICATIONS

Ms. Wellington discussed the smart cycling class and the options for dates. This calss is very important for the application.

A discussion was held and it was decided to send out a doodlepoll to confirm dates. Ms. Wellington would like to extend the invitation to MPO and Mr. Rogers as well.

Mr. L. Pacheco discussed the City wellness coordinator would like to offer a short class to the employees who sign up for the bike to work week.

Mr. Rivera stated he would like to invite a representative of TAB to a meeting to discuss the bike rebate.

Mr. L. Pacheco expressed the need for the form to be filled out.

Mr. Abbatacola recognized the bike lanes on Osage.

#### 11. COMMUNICATIONS FROM THE CHAIR

Councilor Maestas thanked Mr. Herdman chairing the last meeting.

#### 12. ADJOURNMENT

There being no further business to come before the BTAC Committee the meeting was adjourned at 7:32 p.m.

#### **SIGNATURES**

Councilor/Joseph Maestas, Chair

Linda Vigil, Stenographer

TASKS TO BE COMPLETED	NOTES	Staff
1) NEEDS ASSESSMENT	Visit La Tierra Trails to assess points of illegal entry by ATVs and motor vehicles; Visit La Tierra Trails with City Parks staff, citizens, and police on Feb. 9 to discuss ATV issue; Visit Dog Park connector, review alignment and adjust flags	Rogers
2) RESEARCH & FUNDING	Prepare budget request, discuss PSA renewal with Parks and Recreation Dept.; Solicit support for Passport to Trails Program from general public and from Santa Fe Community Foundation; discuss environmental funding opportunity with SFWA; discuss possibility of support to MPO for bike master plan revision et al.	Rogers, Noss
3) STEWARD RECRUITMENT	Present to Santa Fe Fat Tire Society on Volunteer opportunities on City trails, Feb. 13; add contacts to e-mail list; communicate with Parks and Recreation Director and St. Michael's HS regarding volunteer opportunities	Rogers
4) TRAIL MAINTENANCE		
5) TRAINING & EDUCATION	On-line training from ESRI in Geographic Information Systems (ArcGIS)	Rogers
	Meet with Bike and Brew event organizers; Meet with MPO and partners organizing Bike to Work Week; refine route, map, and field test Caja del Rio "gravel grinder" event; organize, publicize and lead Community Cruise to Gail Ryba Trail for c. 12 visitors from Albuquerque as well as local cyclists on "Bike Day at the Capitol," Feb. 25 (see description linked below); publicize Banff Film festival, SFCT fundraiser in March; write article on GUSTO name change, published in Santa Fe New Mexican on Feb. 24 (see link below); Discuss possible Seed Bomb Cruise on Native Plant Day (Sat., Aug. 19) with NM Native Plant Society; coordinate with SFPS schools and City Summer Camps on 2017 field trips; Discuss pedestrian access to Dale Ball Trails with Sage for proto-type of walking guide for use by Santa Fe hotels (producers of "Santa Fe Walking Map"); provide input on city trail maintenance and design for article on muddy trails by Matt Grubs of Santa Fe Reporter	Rogers

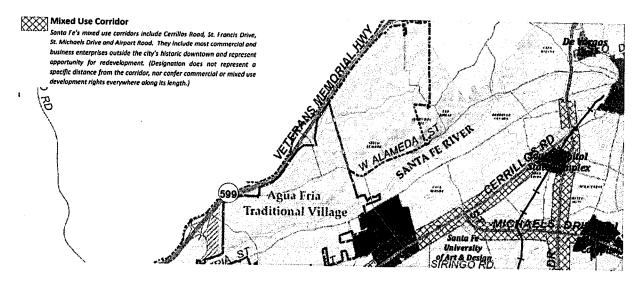

7) CITY CONTACTS	Present to BTAC on January activities, 2/13, to share map of Dog Park	Rogers;
7) CITY CONTACTS	Present to BTAC on January activities, 2/13, to share map of Dog Park Connector route flagged with SFFTS in 2016, and to offer to assist with BR66 and other downtown bicycle wayfinding planning; prepare for and discuss Trail Volunteer Coordinator PSA with Parks and Recreation; field visit with City Parks, Police, and citizens at La Tierra Trails to discuss ATV incursions on non-motorized trails, 2/9; comment to Melissa McDonald on proposed trail alignments for Filter Plant building site and on new River Trail pieces; provide input to MPO on TIP amendments; share RTP grant information with Frances of City Parks; share LCI information with Carlos Sanchez of Recreation Dept.; coordinate with Recreation Dept. re Summer camp field trips	Noss
8) <u>PLANNING /</u> <u>COORDINATION</u>	Visit Dog Park connector, review alignment and adjust flags; comment on trail alignments proposed for Cerro Gordo Filter Plan building site; Propose to MPO that I-25 reconstruction in TIP include re-striping to create shoulders on parallel 3-lane section of Old Las Vegas Highway (w. of Ojo de la Vaca Rd.) for Bike Route 66, per Bicycle Master Plan; meet with TPL on mapping and solicit from City and County latest GIS data to create GUSTO mapping database; publicize and attend Canada Rincon ENN meeting (2/7); share Dale Ball arrow wayfinding signpost specs with Carol Branch of Santa Fe County; schedule GUSTO Steering Committee meeting and update GUSTO partnership agreement, plan document, and materials on web	Rogers
9) <u>REPORTS</u>	Prepare January report for BTAC and City; Create and update SFCT web material on trail events; update GUSTO materials on web	Rogers

Community Cruise to Gail Ryba Trail on "Bike Day," Feb. 25

## What is going on along the St. Michael's Corridor in 2017?

Prepared for City of Santa Fe Bicycle & Trails Advisory Board Santa Fe MPO, March 13, 2017

In January of 2017, The NMDOT in consultation with the Santa Fe MPO recommended that multiple projects be consolidated under one (1) control number for the purposes of:

- 1. Better coordination amongst projects that may have overlapping design and implementation dates;
- 2. Ability to foresee and reduce inefficiencies in project construction where projects may overlap; and
- 3. Ability to communicate each project to stakeholders and the public in a manner that includes overlapping or near-by project impacts as a means to better understand the long-term and overarching implications of proposed improvements.

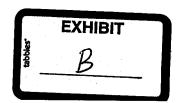

The Santa Fe MPO's Technical Coordinating Committee and Policy Board each approved the creation of the following in February of 2017:

ORIGINAL PROJECT NAME/#: S100440 (Control Number for project management purposes) – St Francis Dr./St Michaels Dr. Interchange Improvements [NMDOT Lead]

The following changes are intended to consolidate a number of existing and newly proposed study and design projects located along St. Michaels Drive to ensure coordination and streamline

the process.

Change Project Name to "St. Michaels Dr. Corridor Improvements"

#### This now includes the following four (4) projects:

#### 1. NM466/US 285 (St. Michaels/St. Francis) Interchange Improvements

This funding will be programmed once a preferred alternative is selected from the current Study underway which was funded in FFY2016 under this control number.

- i. Current study awarded to Radian Engineering Study began in July of 2016.
- 2. Add the \$285,000 in FFY2017 Design Funding from S100470 and add "Rail Trail Underpass Design" to the Scope of Work.
  - i. The proposed project identified through a Road Safety Audit if the following: Design and Construct a Trail Underpass
  - ii. Design FFY 2017/Construction FFY 2019
  - iii. Federal Funds: \$2,808,504
  - iv. State Funds: \$326,496
- 3. Add the \$323,629 in FFY2019 Design Funding from S100340 and add "Pedestrian ADA Improvements" to the Scope of Work.
  - i. Formerly: S100340-NM466 (St. Michaels Drive) Pedestrian ADA Improvements
  - ii. Programmed in the FFY 2016-2021 TIP
  - iii. Federal Funds: \$323,629 State Funds: \$47,120
- 4. Add "Road Diet Study" to the Scope of Work.
  - i. In February of 2015 the St. Michaels Drive "Traffic Assessment" Prepared by Civil Transformations Inc. was finalized. The assessment recommended that a comprehensive corridor study be performed to evaluate the feasibility of a "road diet" under a Complete Street Project.
  - ii. In 2016 the City of Santa Fe completed an "overlay district" as part of continuing work on a community development process for the St. Michael's Drive area that would result in "a vibrant community-centered streetscape and affiliated enhancements for the surrounding area."
  - iii. In order for a road diet or any substantive roadway designs to occur, the NMDOT has made it clear to the City for several years that the City would be required to take ownership of the corridor. Negotiations have been occurring at multiple levels for several years.
  - iv. The inclusion of the "Road Diet Study" within the Scope of Work of now project S100440 St. Michael's Corridor Improvements is an acknowledgment on behalf of the NMDOT that the City is desirous of developing a road diet feasibility study, but makes no commitment on behalf of the City or the State to fund or lead this project.

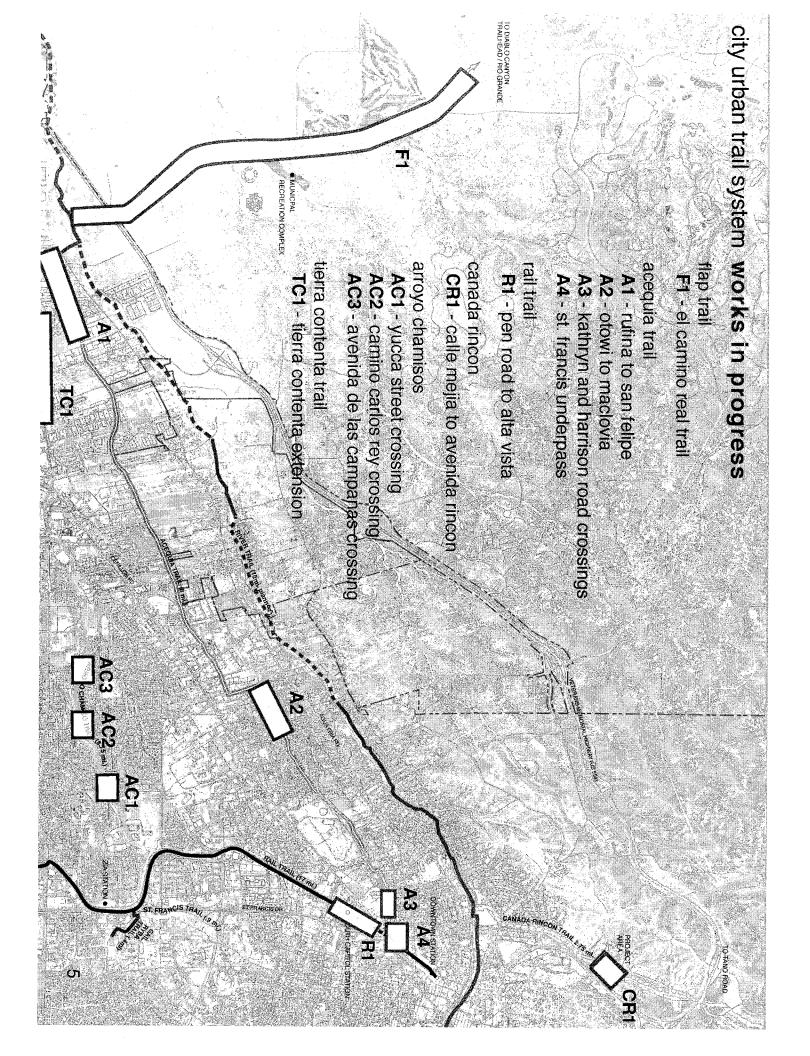

<b>Business Unit</b>	Project	<b>Current Budget</b>	Contracted to date	Remaining Budget	Est. Cost to Complete		<b>Budget Deficit</b>	Budget Surplus

						\$	(3,984,580.65) \$	395,963.56
							Deficit	(3,588,617.09)

See attached map of current projects on the city's bikeway system for reference.

The future budget should include the following three system trails, as all three recently have been on BTAC's radar, have supporting city council resolutions for federal funds applications, and are priorities in the 2012 Bikeway's Master Plan.

- NWQ Trails (BU 426007) remaining unbudgeted cash \$279,153.52, it's been on BTAC's radar for over a year and lately they are closing in on a Connector Trail from La Tierra to the Dog Park. I would suggest all remaining funds be budgeted in FY 17/18.
- Canada Rincon Trail (BU 426012) this is distinct from but related to the current Canada
  Rincon Trail under design from Mejia to Francisca. This new segment is about a mile and goes
  from Viento Drive south to Camino de las Crucitas primarily in NMDOT right-of-way. Est. Cost is
  \$1 million.
- Acequia Trail (426002) the following three segments would complete this trail system. In total
  as described below we should seek approximately \$1.75 million in future funds to complete this
  trail system as described below.
  - from <u>Otowi to Maclovia</u> (this segment ran out of funds trying to go north through Pueblo Alegre. We are recommending the remainder funds go for bridge crossings to the Acequia Trail behind NMSD. To design and construct this segment from Otowi to Maclovia Park we should project a budget of at least \$250,000).
  - From <u>Maclovia to Hermanos Rodriguez Park</u> (this would make a connection to the Rodriguez park from Maez Road; and may require right-of-way acquisition – project a budget of at least \$500,000).
  - from <u>Rufina/S. Meadows to San Felipe</u> (This is already included this in the current CIP projects list for \$1million)

TASKS TO BE COMPLETED	NOTES	Staff
1) NEEDS ASSESSMENT	Visit La Tierra Trails to assess points of illegal entry by ATVs and motor vehicles; Visit La Tierra Trails with City Parks staff, citizens, and police on Feb. 9 to discuss ATV issue; Visit Dog Park connector, review alignment and adjust flags	Rogers

### Happy Trails: Community trail initiative gets new moniker

by Tim Rogers

For The New Mexican | Posted: Sunday, February 26, 2017 1:00 pm

The community-based planning initiative known as the "Grand Unified Trail System" has a new name.

After receiving nearly 200 proposals from more than 80 contributors, the steering committee decided to go with "GUSTO" — the Grand Unified Santa Fe Trails Organization. We hope that more people will find this to be a more palatable and energizing acronym for our effort to connect our wonderful, natural-surface trails to each other and to the places where people in the Santa Fe area live, work and play.

Congratulations go to George Simon of the "Over the Arroyo Gang" for coming up with the winning entry. Honorable mention also goes to Gary Bass, a teacher with El Camino Real Academy who also came up with GUSTO as an acronym for a different name. Both will be rewarded for their efforts with some fine hiking schwag as promised.

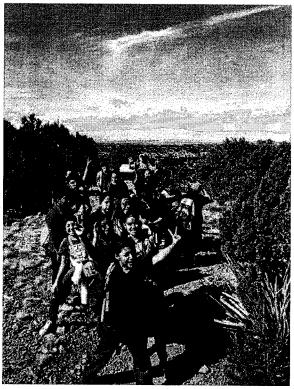

In English, *gusto* is defined by the *Oxford Living Dictionaries online* as "enjoyment and enthusiasm in doing something." In Spanish, *gusto* can be translated as "flavor, taste, liking or fancy." As one of our steering committee members thoughtfully pointed out, "GUSTO has a motivational sound to the acronym, and easy to remember and promote to a wide audience of nature lovers."

The GUSTO initiative will improve community access to our trail systems with a focus on incorporating natural beauty as

trail systems with a focus on incorporating natural beauty as well as historic alignments, such as the Old Spanish Trail, Camino Real, Santa Fe Trail, old Route 66 and abandoned rail lines. Mix beautiful rugged terrain and scenic natural corridors with national historic trails, throw in some parts of the old Chili and Frijoles lines, and we hope that we have a recipe for "mucho GUSTO" for all.

This initiative is supported by city and county resolutions, as well as partnership agreements with 16 more trail-loving organizations as detailed at www.sfct.org/trails/gusto.

We are indeed still working on a "grand unified trail system" together — all of our partnerships remain in place, and we'll grow from here. The GUSTO steering committee includes staff and volunteers from a

Happy Trails: Community trail initiative gets new moniker

Fourth-graders from El Camino Real Academy Photo on a field trip in October, when the 1,000th child took part in the Santa Fe Conservation Trust's 'Passport to Santa Fe's Foothills Trails' program. Photo by Tim Rogers variety of groups who are interested in building, maintaining, and promoting trails, including the Santa Fe Conservation Trust, Trails Alliance of Santa Fe, Santa Fe Fat Tire Society, Santa Fe County Horse Coalition, Friends of the Santa Fe National Forest, Santa Fe County, the state Department of Health and the National Park Service. We look forward to continuing to work together to develop a sustainable, interconnected system of trails around Santa Fe with you all, under this name.

This spring, look forward to the roll-out of study area planning activities through the mapping and route planning subcommittee, as well as GUSTO promotional and community planning events to be organized with the help of the communications and outreach committee. If you would like to participate in the work of one of these committees or study groups, please let us know by e-mailing or calling the Santa Fe Conservation Trust.

We are now receiving critical mapping assistance from the Trust for Public Land, thanks to the generous support of the Lineberry Foundation, which will facilitate these next steps. Thanks also go to the Larsen fund for supporting our coordination of this effort. We plan to have some great GUSTO mapping products to share with the general public at key 2017 events, such as Bike-to-School Day (May 10), Bike-to-Work Week and the Bike and Brew Festival (May 18-21), and National Trails Day (June 3). Stay tuned to more details via e-mail, on Facebook, and on our web site at www.sfct.org/trails/gusto.

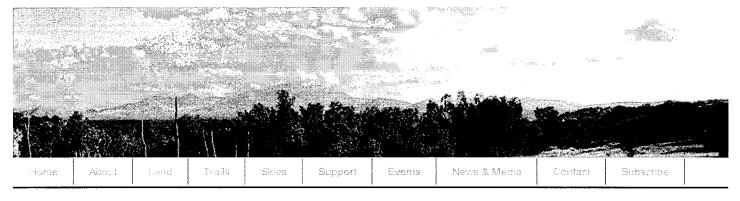

Also look for us out on the trails as we continue field trips under our "Passport to Trails" activity. Last fall, we brought out our 1,000th kid to the trails and this May we anticipate bringing hundreds more fourth and fifth graders from El Camino Real Academy and Nina Otero Community School out on Dale Ball Trails.

We can thank private foundations including the S.L. Gimbel and the Lineberry Foundation for supporting these trips in the past. SFCT could certainly use some more help now to cover the costs of school busses, "passport" trail guides, and prizes for the kids who complete all four city trail sections.

Rogers is the trails program manager for the Santa Fe Conservation Trust.

#### Saving Land. For Everyone. Forever.

### Community Cruise to Gail Ryba Trail on "Bike Day"

On the occasion of "<u>Bike Day</u> at the Capitol," the Trails
Program Manager met a dozen or so members of <u>BikeABQ</u>, as well as a handful of local cyclists, at South Capitol
Station the morning of Feb. 25 to take a ride to the Gail Ryba
Trail and underpass, before heading to the Roundhouse rally from <u>N.M. Bike n Sport</u>.

Riding south on the Rail Trail

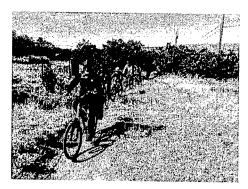

Cyclists from Albuquerque disembark at South Capitol Station

Gail Ryba Trail: Discussion at the sign commemorating
Gail's contributions to advocacy for bicycles and clean
energy

Gail Ryba was the founder of the <u>Bicycle Coalition of New Mexico</u> and the Greater Albuquerque Spokespeople, the predecessor to BikeABQ. The ride followed the Rail Trail to the Gail Ryba Trail and continued on the envisioned extension of the bikeway to E. Zia Rd. From there we took Fort Union Dr. to Corrales Rd., the "Museum Hill Bicycle Trail," and bike lanes on two great local examples of "complete streets" – Old Pecos Trail and the "Cordova Road Diet."

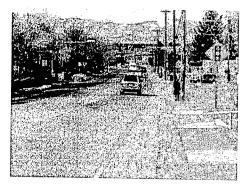

Future Gail Ryba Trail

Jackie Shane of BCNM shows some love for the Gail Ryba Trail, which is actually an eastern extension of the Arroyo Chamiso Trail.

"Museum Hill Bicycle Trail": A Community Cruise First!

Cordova Rd., where the City's first "road diet" converted four lanes to three. This reconfiguration created space for striped shoulders – a vast improvement for pedestrians as well as cyclists.

Getting ready to head down to the Roundhouse from NM Bike n Sport

Shelley Robinson of the City's Bicycle and Trails Advisory Committee (BTAC) arrives at the Roundhouse

## City of Santa Fe New Mexico

# Finance Department Memorandum

DATE:

February 27, 2017

TO:

Public Works Committee

VIA:

Adam K. Johnson, Finance Director

FROM:

Becky A. Casper, Budget Analyst

#### ISSUE:

First review, discussion and recommendation of the five-year Capital Improvement Plan for FY 2017-22.

#### **EXECUTIVE SUMMARY:**

Contained herein is the proposed five-year Capital Improvement Plan (CIP) for FY 2017-2022 for the City of Santa Fe, New Mexico.

The City's Capital Improvement Plan establishes a list of capital improvements which are proposed to be completed over the next five fiscal years. The five years are comprised of the one year Capital Budget and 4 years of capital and financing plans. The document includes cost estimates, method of financing, and a recommended implementation scheduled for each item. Division Directors and Department Heads are asked to submit capital improvement requests annually in March to the Budget Office for inclusion in the CIP. This document is the approved fiscal year 2017 CIP.

The CIP is a five-year planning instrument which identifies needed capital projects. These in turn allow the City to plan and evaluate its financial requirements. Projects planned for start or completion in the first year must be incorporated into the FY 2017-2018 annual budget appropriations. Projects scheduled for subsequent years should be approved on a planning basis and do not receive expenditure authority until incorporated into an annual budget. Council adoption of the CIP represents a serious but non-binding assertion of intent.

The CIP applies discipline to the planning of capital projects by permitting Council and staff to consider the needs of the City on a long-range basis. A comprehensive review of all proposed projects weighed against available funding sources should produce optimal use of public funds, by allowing Council, representing the public, to evaluate and choose between infrastructure and facilities.

With this in mind, the City of Santa Fe still has significant move to improve the planning and implementation of the CIP. As part of this year's process staff will propose a set of policies that clarifies the project application process, financing criteria, and prioritization framework. Staff will bring the CIP and policies for review and recommendation at the March 27th Public Works Committee meeting.

#### **ACTION:**

(1) Review this document as the current state of the CIP that will be adopted along with the FY 2017-18 Budget in April 2017. (2) Provide feedback to finance and project management staff to further improve the presentation, as well as, guidance as to prioritization of projects.

#### **ATTACHMENTS:**

**Needs Assessment** 

(Fill in green sections. The other sections will be automatically filled in or calculated.)

Step 1: List the criteria (e.g., cost, nead) you will use to evaluate the project or acquisition. You may add criteria as needed.

Step 2: Assign a weight to each criterion on a scale of 1 - 10, with 10 being the most important.

ICRITERION		WEIGHT
1 Health, Safety, & V.	la#fare	y . 1(
2 Deterred Maintener		
3 Critical Maintenance	9	10
4 Grant Funded		10
5 Consistent with add		
6 Economic Develops	nent	
7 Part of Ongoing Pro	jest	10
813		

Step 3: Projects will be populated from Capital Needs list. Consider each criterion for each project and assign a rating from 1-10 on how well it meets that criterion. Add project fines as needed.

Step 4: Set Project Score needed for inclusion in Capital Improvement Plan:

PROJECT NAME

Additional projects may be existed by using the copy function to add rows. Riches must also be added to the Capital Improvement Plan tab.

#### **BTAC AGENDA ITEM SUBMISSION FORM**

Please use the template below to submit agenda items for BTAC deliberation. The objective is to assure that deliberations are guided by an understanding of the action sought of BTAC, the pertinence of the proposal to BTAC's mission and objectives, and ultimately the expectations and obligations to which BTAC is agreeing when it takes action on an agenda item.

#### 1. TITLE OR BRIEF DESCRIPTION OF THE AGENDA ITEM:

Update Priorities Projects in 2012 Santa Fe MPO Bicycle Master Plan

**2. INTRODUCTION TO THE TOPIC:** A brief statement regarding origin of the agenda item and its relevance to the current activity of BTAC.

In order to plan for future trails it will be necessary for BTAC to review and update priorities listed in the 2012 Bicycle Master Plan

**3. BTAC ACTION BEING SOUGHT:** Most BTAC deliberation is intended to achieve one of three outcomes. If appropriate be prepared to suggest a formal motion to the meeting floor for debate, discussion and vote.

\*To inform: The purpose is to inform board members of the actions/thoughts of the presenting group and to provide an opportunity for discussion and questions. (E.g., an update from a standing or ad-hoc subcommittee) No action from BTAC is sought.

\*To discuss: BTAC agrees that a preliminary proposal is worthy of further discussion. A possible motion to direct an individual to review the issue and return at a specified time with a formal proposal for action is sought.

\*Ta act: BTAC supports a plan that requires outlining actions and obligations for Board members and/or Staff. A motion clarifying objectives, expectations and obligations of Board and/or Staff is sought.

Information for board members to discuss, share thoughts for moving forward

**4. ESTIMATION OF COST AND/ TIME:** Who would be responsible for costs and/or BTAC or staff time? Has affected BTAC member or staff been apprised of the proposal and do they understand the obligations?

City staff

#### B. Agency Responsibilities

This plan emphasizes the need to coordinate bikeway planning, construction, and maintenance within the MPO area, including working with city and county public works, streets, parks, trails, and development review departments, as well as public and private utilities, commissions, transit services, NMDOT, other state entities and facilities, and Tesuque Pueblo. The MPO will pursue a relationship whereby agencies may collaboratively plan and implement projects, including shared development and review of plans and designs with significance to the development of the bikeway system. Appendix 13 presents a table seeking to clarify roles and responsibilities related to improving bicycle transportation in the MPO area for specific public agencies, pertinent divisions within those agencies, and selected private entities.

#### C. Recommended Short-, Medium-, and Long-Term Projects

Tables 7 through 10 presents the road, trail, and crossing improvements proposed above, under Chapter IV., "Recommendations," as projects within three implementation phases:

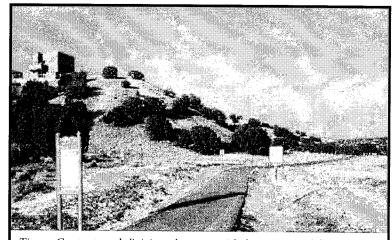

- Phase A, representing a five-year horizon (2012-2017),
- Phase B, representing 5-10 years out (2017-2022), and
- Phase C representing 10-20 years out (2022-2032).

Each recommendation is conceptual and subject to more detailed feasibility analysis by each implementing agency.

Within each phase, proposed projects are broken down by prospective lead agency and type of project. Tables 8 through 10 also provides a "planning-level" cost estimate for each recommended improvement, based on standardized unit costs and other cost

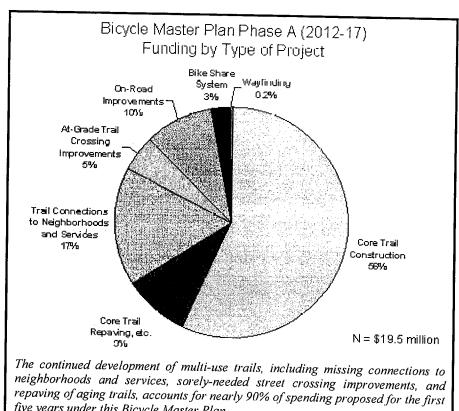

considerations outlined in Appendix 14: Unit Costs used in Tables 8-10. These improvements are also shown by type of improvement, phase, and general trail alignment on Maps 7-15.

The three implementation phases reflect not only project priority but the need to logically sequence improvements to achieve maximum impact. Some projects that ranked high in the impact and feasibility analysis may be phased back in order to allow time for parallel processes or to

Tierra Contenta subdivisions have provided current and future Santa Feans with many miles of bike lanes and multi-use trails. Tierra Contenta's section of the Arroyo de los Chamisos Trail spans over two miles, providing a direct connection to the future site of a planned major regional park (the "Southwest Activity Node" or SWAN Park). Significant bikeways anticipated through private development are listed in Table 12.

conserve scarce funding for other projects. For example, this plan supports the proposed grade-separated crossing of St. Francis Dr. for the Acequia Trail, but places the project in Phase B as a suggestion to conserve short-term resources in order to pursue a wider variety of smaller trail connections with significant impact. After five years, the extent to which various programmed improvements to the Acequia Bikeway listed in Phase A have contributed to increased demand for the grade-separated crossing may make the decision to commit to the crossing far more compelling.

five years under this Bicycle Master Plan.

This list of public projects in Tables 8 through 11 is as comprehensive as possible but is not exhaustive. New priorities for trail alignments, connections, crossings, and road improvements will continue to arise as our metropolitan area develops and as bicycle use expands. The MPO and its member agencies will need to continue to strive to anticipate future needs and to take advantage of opportunities that arise relating to private developments (e.g., see Table 12) as well as public projects. Thus implementation of this BMP requires some flexibility. The contents of these Phases will be revisited and revised by the MPO and its member agencies as implementation proceeds.

Table 8. Phase A Recommended Improvements, with Anticipated Lead Agency and Cost Estimate

		Cost Estimate -2017, listed in order of Agency, and then type of project			
	Type of Improvement	Improvement	miles	1	Cost timate
(1)	City-Lead Trail Co	onstruction (in rough order of priority)

5		SOUTHWEST: To Waldo Canyon / Cerrillos / Madrid via Railrunner line and old rail bed to Madrid	NA	\$ -	

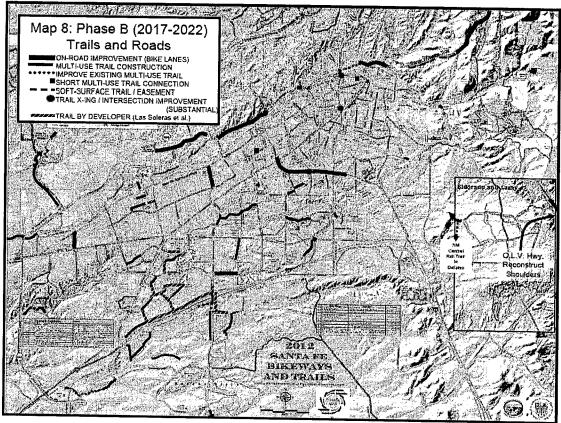

Private development is a cornerstone of bikeway improvements in the city and the county. Improvements that are expected through private development are not included in Tables 8 through 11, but are critical to the determination of priorities and phases for relevant publicly-funded projects. Table 12 below provides a list of "developer-driven" bikeway segments that directly influence the implementation plan. The anticipated timing of these developments and of public initiatives such as river restoration, development of parks and open space, other major public projects, as well as planned annexation, has significant impact on phasing decisions for individual projects in Tables 8-11.

In addition to playing a role within the greater bikeway system, privately-funded facilities respond to needs generated by private developments themselves. Planning for and programming these improvements must therefore remain flexible. This list is *not* an attempt to reflect all bikeway needs that may be met through private developments but rather an illustration of expectations of the role that private development may play in creating, extending, or connecting into major bikeways in the MPO area.

Table 12: Bikeway Projects Anticipated through Private Development

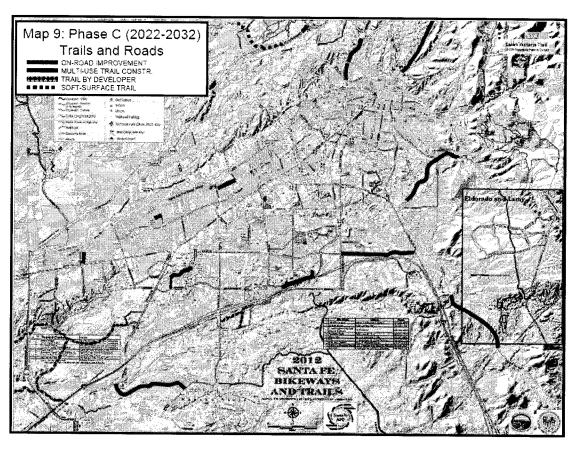

DD	Developer Driv	ren Improvements (selected)	
	Type of Improvement	Location	miles
1	Multi-Use Trail	ARROYO HONDO (south branch): E. of Amy Biehl School through private development to	0.25
2	Bike Lanes	Widen Ave del Sur east of Amy Biehl School	0.15

Implementation Plan

## BTAC AGENDA ITEM SUBMISSION FORM

Please use the template below to submit agenda items for BTAC deliberation. The objective is to assure that deliberations are guided by an understanding of the action sought of BTAC, the pertinence of the proposal to BTAC's mission and objectives, and ultimately the expectations and obligations to which BTAC is agreeing when it takes action on an agenda item.

### 1. TITLE OR BRIEF DESCRIPTION OF THE AGENDA ITEM:

Proposal to extend "Montoyas Trail" south through City-owned land east of Camino de las Montoyas, to an existing pedestrian gate, as a natural-surface single-track trail, along a 0.6-mile alignment flagged by Santa Fe Conservation Trust with city trail volunteers in 2016.

**2. INTRODUCTION TO THE TOPIC:** A brief statement regarding origin of the agenda item and its relevance to the current activity of BTAC.

This item responds to direct request from BTAC members on February 13, in discussion under Item 7b, for the City Trail Volunteer to report on plans relevant to the proposed "Connector Trail from Frank Ortiz Dog Park to La Tierra Trails."

**3. BTAC ACTION BEING SOUGHT:** Most BTAC deliberation is intended to achieve one of three outcomes. If appropriate be prepared to suggest a formal motion to the meeting floor for debate, discussion and vote.

\*To inform: The purpose is to inform board members of the actions/thoughts of the presenting group and to provide an opportunity for discussion and questions. (E.g., an update from a standing or ad-hoc subcommittee) No action from BTAC is sought.

\*To discuss: BTAC agrees that a preliminary proposal is worthy of further discussion. A possible motion to direct an individual to review the issue and return at a specified time with a formal proposal for action is sought.

\*Ta act: BTAC supports a plan that requires outlining actions and obligations for Board members and/or Staff. A motion clarifying objectives, expectations and obligations of Board and/or Staff is sought.

SFCT requests that BTAC support the following proposal and request that the city manager direct the Parks Division, Trails Engineering, and any other city staff or committees to support this effort as well. Based on Exhibit C distributed to BTAC on Feb. 13, SFCT, as City Trail Volunteer Coordinator, proposes to work with the Parks Division and city trail volunteers to formalize the proposed trail alignment as a natural-surface, single-track trail to serve hikers and bicyclists on City Open Space between the two existing pedestrian access gates. The remainder of the alignment to the Frank Ortiz Dog Park will involve right-of-way, drainage, and historic resource issues that may be best addressed by city staff in the future, with the support of remaining bond funds dedicated to the implementation of the La Tierra Trails Master Plan.

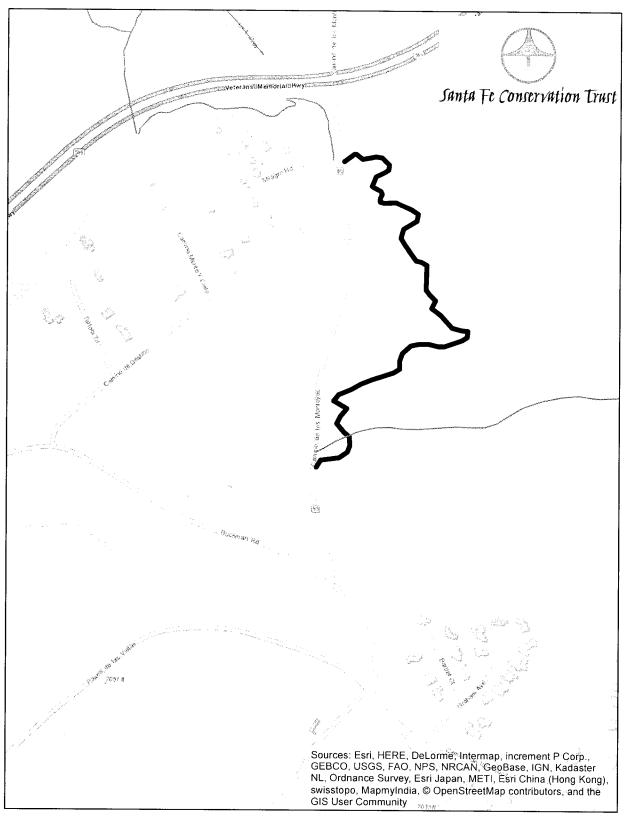

**4. ESTIMATION OF COST AND/ TIME:** Who would be responsible for costs and/or BTAC or staff time? Has affected BTAC member or staff been apprised of the proposal and do they understand the obligations?

This proposal was presented to BTAC as an informational update on Feb. 13, was discussed by BTAC under Item 7b, and discussed in more detail with the BTAC member focusing on La Tierra Trails, Mr. Frank Herdman. This project can be completed by volunteers with minimal requirements on city staff and with no significant financial requirements on the City. SFCT would request only that City Parks staff assist with removal of trash that is gathered by volunteers, and possibly with adjustments to boulders placed as obstacles inside of the pedestrian gate on the south terminus. SFCT would also request that the City Parks Division support approximately \$100 in costs for installations of wayfinding and related signage, to be designed by SFCT with City Parks approval, and sign posts that can be installed at each gate by trail volunteers, or by City Parks staff, if preferred.

This trail can be completed in two or three work days primarily through (1) removal of grasses from tread area in some locations and (2) placement of rock and dirt fill into small gullies that the trail crosses in such a way as to remediate erosion and prevent further erosion of surrounding soils. The primary form of improving the tread will be simply through use by hikers and bicyclists. There will be no need for digging or "bench cutting" at any significant depth below the gound level for this trail as cross slopes are minimal throughout the alignment. Trash removal, including removal of broken glass, will be an initial focus and an ongoing maintenance activity to be taken on by volunteers.

The area in question has been subjected to significant levels of illegal motorized use, producing various selferoding "double-track" trails left by ATV's and motor vehicles, as well as decades of illegal dumping of glass, cans, construction materials, and various other materials. To the extent the City requires reviews or clearances for the construction of this natural-surface trail, SFCT is prepared to pay for such processes through specific private support for the GUSTO project.

# La Tierra Trails / Proposed Montoyas Trail Extension

Alignment between Two Existing Open Space Pedestrian Gates flagged in 2016 by City Trail Volunteer Coordinator with SFFTS volunteers 3,420 ft. = approx 0.6 mile

RE:

**Bicycle Community Application Update** 

I wanted to provide a brief update of the Bicycle Friendly application. As you know I missed the February 9th application deadline. The next BFC application deadline is scheduled for August 2017. The city's applications will automatically transfer to the Fall application deadline (See attached email from Ken McLeod, League of American bicyclists).

I'm currently about 30% complete, the reason for the delay is the recent Railyard projects. Starting in April I will have more time for the application. I hope to have the application ready for review by the end of May 2017. I will be at the next BTAC meeting in April with more details regarding the application process.

Reminder: Bicycle Friendly Community Application Deadline is February 9th

Dear Robert,

L 10 a 30 M 26 26 20 80 7

Thank you for starting an application for a Bicycle Friendly Community award. I want to remind you that the spring application cycle will close in one week, on February 9, 2017 at 11:59 PM PT. Our records indicate that the following application is in progress:

01361 - Santa Fe

Any applications that are not submitted before the deadline will automatically transfer to the Fall 2017 BFC application round, which closes August 2017.

To finish and submit your application, please visit: <a href="http://apply.bikeleague.org">http://apply.bikeleague.org</a>. Feel free to contact me at <a href="http://apply.bikeleague.org">ken@bikeleague.org</a> if you have any questions as you complete the application process.

If you do not plan to complete any of the application above and would like to no longer receive emails related to it, then please contact me at <u>ken@bikeleague.org</u>.

Thank you!

The Bicycle Friendly America Team
