

CITY OF SANTA FE, NEW MEXICO

BILL NO. 2009-34

INTRODUCED BY:

Handwritten signatures of Chris Calvert and C. Dominguez. Below them is a stylized signature that appears to be "R. L. R."

AN ORDINANCE

REPEALING ARTICLE 20-25 SFCC 1987 MAINTENANCE AND INSTALLATION OF  
ALARM DEVICES AND SYSTEMS AND CREATING A NEW ARTICLE 20-5 SFCC 1987  
REGARDING ALARM SYSTEMS, FALSE ALARM REDUCTION AND MAKING SUCH  
OTHER CHANGES AS ARE NECESSARY.

BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF SANTA FE:

Section 1. [REPEAL.] Article 20-25 SFCC 1987 (being Ord. No. 1988-31, §§1-15  
as amended) is repealed.

Section 2. A new Article 20-5 SFCC 1987 is ordained to read:

20-5 [NEW MATERIAL.] ALARM SYSTEMS.

Section 3. A new Section 20-5.1 SFCC 1987 is ordained to read:

20-5.1 [NEW MATERIAL.] Legislative Findings.

The governing body of the city of Santa Fe finds that:

A. There is increasing use of private emergency alarm systems by citizens of the city of  
Santa Fe; and

1           B.     Ninety-nine percent (99%) of alarms generated by alarm systems are listed as false  
2 alarms by the Santa Fe police department; and

3           C.     The Santa Fe police department spends more than three thousand eight hundred  
4 (3,800) hours annually, equivalent to two full-time sworn officers or about one hundred sixteen  
5 thousand, four hundred eighty dollars (\$116,480) per year responding to false alarms; and

6           D.     Police and fire department responses to false alarms provide an extra public safety  
7 service that benefits only those individuals who own alarm systems; and

8           E.     Alarm users and the general public are harmed by excessive numbers of false alarms  
9 because excessive false alarms divert public safety officers from other potentially critical duties and  
10 constitute a nuisance that must be abated; and

11          F.     Fees to reimburse the city for the costs of responding to excessive false alarms are  
12 justified because these false alarms divert limited public safety resources; and

13          G.     The fire department recognizes the value of fire and medical alarms and will respond  
14 accordingly to investigate, suppress fire propagation, address life safety issues, and provide medical  
15 treatment to fulfill the needs of the public; however, these services are not used effectively when fire  
16 personnel must respond to locations with excessive numbers of false alarms; and

17          H.     Businesses with excessive false fire alarms are subject to reinspection of their fire  
18 suppression, fire alarm system and facilities by the fire marshal's office; and

19          I.     Certain records are necessary to locate the persons in control of a property when the  
20 regional emergency communications center has been notified by an alarm of an actual burglary or  
21 other emergency and needs access to the property or when an audible alarm system is malfunctioning  
22 so as to cause a nuisance to the neighbors and other persons in the proximity of the alarm; and

23          J.     Fees and fines may not be sufficient inducement for alarm installation companies and  
24 monitoring companies to comply with this Ordinance; therefore, alarm installation companies and  
25 monitoring companies that engage in a pattern of violations under this Ordinance should be subject to

suspension and revocation of their business license.

**Section 4. A new Section 20-5.2 SFCC 1987 is ordained to read:**

**20-5.2 [NEW MATERIAL.] Short Title.** Article 20-5 SFCC 1987 may be cited as the “Alarm System Ordinance”.

**Section 5. A new Section 20-5.3 SFCC 1987 is ordained to read:**

**20-5.3 [NEW MATERIAL.] Purpose.** The purpose of this Ordinance is to:

A. Require alarm users, alarm installation companies and monitoring companies to properly use and maintain the operational effectiveness of alarm systems in order to improve the reliability of alarm systems and reduce or eliminate false alarms;

B. Establish a system of administration;

C. Govern alarm systems intended to summon law enforcement response;

D. Require alarm users to register alarm systems;

E. Establish fees and penalties for violations; and

F. Set conditions for suspension of police response or revocation of registration.

**Section 6. A new Section 20-5.4 SFCC 1987 is ordained to read:**

**20-5.4 [NEW MATERIAL.] Definitions.**

*Alarm administrator* means the city staff or agent for the city designated by the city of Santa Fe to administer the provisions of this Ordinance.

*Alarm dispatch request* means a notification by an alarm installation company or a monitoring company to the regional emergency communications center that an alarm, either manual or automatic, has been activated at a particular alarm site.

*Alarm installation company* means a person in the business of selling, providing, maintaining, servicing, repairing, altering, replacing, moving or installing an alarm system in an alarm site. This definition shall also include individuals or firms that install and service the alarm systems that will be used in their private or proprietary facilities. This does not include persons doing installation or

1 repair work where such work is performed without compensation of any kind (such as “do-it-  
2 yourselves”).

3 *Alarm registration* means authorization granted by the alarm administrator to an alarm user to  
4 operate an alarm system.

5 *Alarm response manager* (“ARM”) means a person designated by an alarm installation  
6 company to handle alarm issues for the company and act as the primary point of contact for the alarm  
7 administrator.

8 *Alarm site* means a single fixed premises or location served by an alarm system or systems.  
9 Each unit, if served by a separate alarm system in a multi-unit building or complex, shall be  
10 considered a separate alarm site.

11 *Alarm system* means a device or series of devices, including, but not limited to, hardwired  
12 systems and systems interconnected with a radio frequency method such as cellular or private radio  
13 signals, which emit or transmit a remote or local audible, visual or electronic signal indicating an  
14 alarm condition and intended to summon police or fire response, including local alarm systems.  
15 Alarm system does not include an alarm installed in a vehicle or on someone's person unless the  
16 vehicle or the personal alarm is permanently located at a site.

17 *Alarm user* means any person that has contracted for monitoring, repair, installation or  
18 maintenance service from an alarm installation company or monitoring company for an alarm system,  
19 or any person that owns or operates an alarm system which is not monitored, maintained or repaired  
20 under contract.

21 *Alarm user awareness class* means a class conducted for the purpose of educating alarm users  
22 about the responsible use, operation, and maintenance of alarm systems and the problems created by  
23 false alarms.

24 *ANSI/SIA control panels standard CP-01* means the ANSI – American National Standard  
25 Institute approved Security Industry Association – SIA CP-01 control panel standard, as may be

1 updated from time to time, that details recommended design features for security system control  
2 panels and their associated arming and disarming devices to reduce the incidence of false alarms.  
3 Control panels built and tested to this standard by Underwriters Laboratory (UL), or other nationally  
4 recognized testing organizations, will be marked to state: "Design evaluated in accordance with SIA  
5 CP-01 Control Panel Standard Features for False Alarm Reduction".

6 *Arming station* means a device from which the alarm system is turned on (armed) and off  
7 (disarmed).

8 *Audio verification* means the transfer of sounds from the protected premises to the monitoring  
9 company, as a result of activation of one or more devices, to confirm or deny the validity of the alarm  
10 signal.

11 *Automatic voice dialer* means any electrical, electronic, mechanical, or other device capable  
12 of being programmed to send a prerecorded voice message, when activated, over a telephone line,  
13 radio or other communication system, to the regional emergency communications center.

14 *Cancellation* means the process where response is terminated when a monitoring company  
15 for the alarm site notifies the regional emergency communications center that there is not an existing  
16 situation at the alarm site requiring law enforcement agency response after an alarm dispatch request.

17 *Conversion* means the transaction or process by which one alarm installation company or  
18 monitoring company begins the servicing and/or monitoring of a previously unmonitored alarm  
19 system or an alarm system previously serviced and/or monitored by another alarm company.

20 *Dual technology* means two separate technological methods of detection in one alarm system  
21 or device(s).

22 *Duress alarm* means a silent alarm system signal generated by the entry of a designated code  
23 into an arming station in order to signal that the alarm user is being forced to turn off the system and  
24 requires law enforcement response.

25 *Enhanced call verification ("ECV")* means a monitoring procedure requiring that a minimum

1 of two calls be made prior to making an alarm dispatch request. The two calls shall be made to  
2 different phone numbers where a responsible party can typically be reached.

3 *False alarm* means the activation of any alarm system resulting in an alarm dispatch request,  
4 for which the responding public safety officer finds no evidence of criminal activity, fire, smoke,  
5 carbon monoxide, heat or other threat of emergency of the kind for which the alarm system was  
6 designed to give notice.

7 *Holdup/robbery alarm* means a silent alarm signal generated by the manual activation of a  
8 device intended to signal a robbery in progress or immediately after it has occurred.

9 *Law enforcement authority* means the chief of police, the fire chief or other authorized  
10 representative of a law enforcement agency.

11 *License* means a license issued by the city of Santa Fe to an alarm installation company and  
12 monitoring company to sell, install, monitor, repair, or replace alarm systems.

13 *Local alarm system* means any alarm system, which is not monitored, that annunciates an  
14 alarm only at the alarm site.

15 *Monitoring* means the process by which a monitoring company receives signals from an  
16 alarm system and relays an alarm dispatch request to the regional emergency communications center  
17 for the purpose of summoning law enforcement to the alarm site.

18 *Monitoring company* means a person in the business of providing alarm system monitoring  
19 services.

20 *One plus duress alarm* means the manual activation of a silent alarm signal by entering a  
21 code at an arming station that adds one to the last digit of the normal arm/disarm code (for example,  
22 normal code = 1234, one plus duress code = 1235).

23 *Other electronic means* is the real-time audio/video surveillance of an alarm site by the  
24 monitoring company, by means of devices that permit the direct, live listening in or viewing of an  
25 alarm site or portions thereof.

1        *Panic alarm* means an audible alarm system signal generated by the manual activation of a  
2 device intended to signal a life threatening or emergency situation requiring law enforcement  
3 response.

4        *Person* means an individual, corporation, partnership, association, organization or similar  
5 entity.

6        *Regional emergency communications center ("RECC")* means the city/county entity that  
7 receives all police, fire, medical and animal control emergency 911 calls and non-emergency calls for  
8 the city of Santa Fe and Santa Fe county and dispatches the appropriate law enforcement personnel to  
9 the location as needed.

10       *Responder* means an individual capable of reaching and having access to the alarm site, the  
11 code to the alarm system, and the authority to approve repairs to the alarm system.

12       *Suspension of response* means the termination of police response to an alarm at a specified  
13 alarm site as a result of false alarms or other violation of the Alarm System Ordinance.

14       *Takeover* means the transaction or process by which an alarm user takes over control of an  
15 existing alarm system, which was previously controlled by another alarm user.

16       *Video verification* means the transfer of video images to the monitoring company reflecting  
17 conditions existing at the protected premises at the time an alarm was activated through the use of  
18 video technology.

19       *Zones* means the capability of an alarm system to separate and report incidents or alarms by  
20 area. (Example: Zone 1 – Front Door Contact; Zone 2 – Front Entry Motion Detector)

21       **Section 7.       A new Section 20-5.5 SFCC 1987 is ordained to read:**

22       **20-5.5 [NEW MATERIAL.]    Registration Required; Application; Fee;**  
23 **Transferability; False Statements.**

24       A.       No alarm user shall operate, or cause to be operated, an alarm system at its alarm site  
25 without a valid alarm registration. A separate alarm registration is required for each alarm site.

1           B.       The non-refundable fee for an alarm registration or an alarm registration renewal is  
2 set forth in Section 20-5.14 SFCC 1987 and shall be paid by the alarm user. The initial alarm  
3 registration fee shall be submitted to the alarm administrator within five (5) days after the alarm  
4 system installation or alarm system takeover.

5           C.       The alarm registration application shall include the following information:

6               (1)     The name, complete address (including apartment/suite number), mailing  
7 address, if different from the address of the alarm site; and telephone numbers of the person  
8 who will be the registration holder and be responsible for the proper maintenance and  
9 operation of the alarm system and the payment of fees assessed under this article.

10              (2)     The classification of the alarm site as either residential or commercial.

11              (3)     The classification of the alarm system (burglary, fire, holdup, duress, panic  
12 or other) and for each classification whether such alarm is audible or silent.

13              (4)     Detailed information regarding any dangerous or special conditions present  
14 at the alarm site.

15              (5)     The names and telephone numbers of at least two individuals who are able  
16 and have agreed to:

17                   (a)     Receive notification of an alarm system activation at any time;

18                   (b)     Respond to the alarm site within thirty (30) minutes at any time; and

19                   (c)     Upon request is able to grant access to the alarm site and deactivate  
20 the alarm system if necessary.

21       One of the two individuals may be the alarm response manager.

22              (6)     If alarm site is commercial, the type of business conducted.

23              (7)     A signed affidavit from the alarm user which states as applicable:

24                   (a)     The date of installation, conversion or takeover of the alarm system,  
25 whichever is applicable;

1 (b) The name, address, telephone number and city of Santa Fe business  
2 license number of the alarm installation company or companies performing the alarm  
3 system installation, conversion or takeover; and the name, address, telephone number  
4 and city of Santa Fe business license number of the alarm installation company  
5 responsible for providing service to the alarm system;

6 (c) The name, address, telephone number and city of Santa Fe business  
7 license number of the monitoring company if different from the alarm installation  
8 company;

9 (d) That the alarm user has been trained by the alarm installation  
10 company in the proper use of the alarm system, including instructions on how to  
11 avoid false alarms;

12 (e) That the signed statement by the alarm installation company  
13 verifying the training is attached to the alarm registration application; and

14 (f) That a set of written operating instructions for the alarm system,  
15 including written guidelines on how to avoid false alarms, has been left with the  
16 alarm user by the alarm installation company.

17 (8) Acknowledgement that law enforcement response may be influenced by  
18 factors including, but not limited to, the availability of police units, priority of calls, weather  
19 conditions, traffic conditions, emergency conditions and staffing levels.

20 D. Upon receipt of a completed alarm registration application form and the alarm  
21 registration fee, the alarm administrator shall register the alarm user, unless the applicant has:

22 (1) Failed to pay a fine assessed under Section 20-5.14 SFCC 1987; or

23 (2) Had an alarm registration for the alarm site suspended or revoked, and the  
24 violation causing the suspension or revocation has not been corrected.

25 E. Any false statement of a material fact made by an alarm user for the purpose of

obtaining an alarm registration shall be sufficient cause for refusal to issue a registration.

F. An alarm registration cannot be transferred to another person or alarm site. An alarm user shall inform the alarm administrator of any change that alters any of the information listed on the alarm registration application within five (5) business days of such change.

G. All fines and fees owed by an alarm user shall be paid before an alarm registration may be issued or renewed.

H. Governmental entities, including federal, state, county, public schools and other political subdivisions of the state of New Mexico shall obtain an alarm registration, for tracking purposes only. Registration fees, services fees and fines shall not be required of such entities.

**Section 8. A new Section 20-5.6 SFCC 1987 is ordained to read:**

**20-5.6 [NEW MATERIAL.] Alarm Registration; Duration and Renewal.**

An alarm registration shall expire one (1) year from the date of issuance, and shall be renewed annually by submitting an updated application and a registration renewal fee to the alarm administrator. The alarm administrator shall notify each alarm user of the need to renew their registration within sixty (60) days prior to the expiration of the registration. It is the responsibility of the alarm user to submit an application for renewal prior to the registration expiration date. Failure to renew will be classified as use of a non-registered alarm system and a late fee, citations and penalties shall be assessed without waiver. A late fee may be assessed if the renewal is more than thirty (30) days late.

**Section 9. A new Section 20-5.7 SFCC 1987 is ordained to read:**

**20-5.7 [NEW MATERIAL.] Duties of the Alarm User.**

A. An alarm user shall:

(1) Obtain an alarm registration for the alarm system as required in Section 20-5.5 SFCC 1987.

(2) Maintain the alarm site and the alarm system in a manner that will minimize

1 or eliminate false alarms.

2 (3) Make every reasonable effort to have a responder to the alarm site within  
3 thirty (30) minutes when requested by the city in order to deactivate an alarm system, provide  
4 access to the alarm site; and if necessary, provide alternative security for the alarm site.

5 (4) Not activate an alarm system for any reason other than an occurrence of an  
6 event that the alarm system was intended to report.

7 B. An alarm user shall adjust the mechanism or cause the mechanism to be adjusted so  
8 that an alarm signal audible on the exterior of an alarm site will sound for no longer than five (5)  
9 minutes after being activated.

10 C. After an alarm site has three (3) false alarms within a one (1) year period, the alarm  
11 administrator shall notify the alarm user that the alarm user shall contract with a licensed alarm  
12 installation company to inspect the alarm system. The alarm administrator may waive a required  
13 inspection if it determines that a false alarm(s) could not have been related to a defect or malfunction  
14 in the alarm system.

15 D. After an alarm site has five (5) false alarms within a one (1) year period, the alarm  
16 administrator shall notify the alarm user that the alarm user shall contract with a licensed alarm  
17 installation company to modify the alarm system to be more false alarm resistant and provide  
18 additional user training as appropriate.

19 E. An alarm user shall not use an automatic voice dialer.

20 F. An alarm user shall maintain at each alarm site, a set of written operating instructions  
21 for each alarm system.

22 G. An alarm user who has contracted with an alarm monitoring company shall be aware  
23 of the "acclimation period" described in Section 30-5.10 SFCC 1987.

24 **Section 10. A new Section 20-5.8 SFCC 1987 is ordained to read:**

25 **20-5.8 [NEW MATERIAL.] Licensing of Alarm Installation Companies and**

1 **Monitoring Companies.**

2 A. All alarm installation companies and monitoring companies shall possess a current  
3 city of Santa Fe business license as provided for in Section 18-1.4 SFCC 1987. Business licenses  
4 shall be renewed on an annual basis.

5 B. All alarm installation companies and monitoring companies shall possess a valid  
6 license issued by the construction industries division of the regulation and licensing department of the  
7 state of New Mexico. Said license and proof of bond shall be presented to the city at the time of  
8 licensing, renewal of the business license, or upon request by the city.

9 C. Whenever any information on the business license application changes, the license  
10 holder shall notify the alarm administrator within thirty (30) days of such change.

11 **Section 11. A new Section 20-5.9 SFCC 1987 is ordained to read:**

12 **20-5.9 [NEW MATERIAL.] Duties of Alarm Installation Company.**

13 A. The alarm installation company shall provide written and oral instructions to each of  
14 its alarm users in the proper use and operation of each alarm system(s). Such instructions shall  
15 specifically include all instructions necessary to turn the alarm system on and off and how to avoid  
16 false alarms.

17 B. Alarm installation companies shall use only ANSI/SIA CP-01 listed alarm control  
18 panels on all new installations and panel replacements or upgrades.

19 C. An alarm installation company shall not:

20 (1) Install or activate automatic voice dialers;

21 (2) Program an alarm system so that the alarm system is capable of sending one  
22 plus duress alarms. The alarm installation company shall remove the one plus duress alarm  
23 feature from alarm systems whenever an alarm technician is at the alarm site or otherwise  
24 accessing the panel for reprogramming purposes; or

25 (3) Program an alarm system to activate a holdup alarm, which is a single action,

1 non-recessed button.

2 D. After completion of the installation of an alarm system, an alarm installation  
3 company employee shall review with the alarm user the false alarm prevention checklist which shall  
4 be provided by the alarm administrator.

5 E. An alarm installation company that purchases alarm system accounts from another  
6 alarm installation company shall notify the alarm users that the alarm users need to notify the alarm  
7 administrator that the alarm registration needs to be updated with the name of the new alarm  
8 installation company.

9 F. Each alarm installation company shall designate one individual as the alarm response  
10 manager (ARM) for the company who will manage alarm related issues and act as the point of contact  
11 for the alarm administrator. The ARM shall be knowledgeable of the general provisions of the  
12 Ordinance, as well as have the knowledge and authority to deal with false alarm issues and respond to  
13 requests from the alarm administrator. The name, phone number, and email address of the designated  
14 ARM shall be provided to the alarm administrator.

15 G. Upon the effective date of this Ordinance, alarm installation companies shall provide  
16 the alarm administrator with an existing customer list in a format acceptable to the alarm  
17 administrator to assist the alarm administrator with creating tracking data.

18 H. Alarm installation companies shall provide a monthly report to the alarm  
19 administrator by the twenty-fifth day of the month listing all new alarm systems, which the alarm  
20 installation company contracted to install during the previous month. Each report shall include at the  
21 minimum the name, address and phone number of the alarm user and the address of the alarm site.  
22 Nothing in this Ordinance shall prohibit the use of such information for legitimate public safety  
23 purposes. A fine in accordance with Section 20-5.14 SFCC 1987 for each monthly report that is  
24 overdue shall be assessed to any alarm installation company that fails to provide this report by this  
25 deadline.

1           I.       Alarm installation companies shall assist the alarm administrator by providing the  
2 initial alarm registration application to the alarm user and submit such registrations to the alarm  
3 administrator within ten (10) days of the activation of an alarm system.

4           J.       If an alarm installation company repairs an alarm system within ten (10) days after a  
5 false alarm, the alarm installation company may transmit the repair invoice or other written record of  
6 the repair to the alarm administrator, in which instance the alarm administrator shall delete the false  
7 alarm from the alarm user's record. There shall be no more than two repair deletions allowed per  
8 alarm user registration per year.

9           K.       All alarm system installation company personnel responding to alarms, or repairing  
10 or installing alarm systems shall wear a picture identification card issued by the alarm installation  
11 company on their company uniform, which identifies the individual and the alarm installation  
12 company. The alarm system installation company personnel includes, without limitation, any person  
13 or entity that derives any pecuniary benefit from any contract for the installation of any alarm system,  
14 including any person or entity that sells a contract for the installation or monitoring of an alarm  
15 system. This identification card shall be in a standard form approved by the alarm administrator. The  
16 identification card shall be issued by the alarm installation company after a background investigation  
17 has been conducted on that individual. No identification card shall be issued if the applicant has been  
18 convicted of a felony. Each alarm installation company shall pay a fine in accordance with Section  
19 20-5.14 SFCC 1987 for each and every installation conducted in whole or in part by an employee  
20 who lacks the required background investigation or identification card.

21           **Section 12.     A new Section 20-5.10 SFCC 1987 is ordained to read:**

22           **20-5.10 [NEW MATERIAL.]   Duties of Monitoring Company.**

23           A.       Monitoring companies shall not make an alarm dispatch request of a law enforcement  
24 agency in response to a burglar alarm signal, excluding panic, duress and holdup signals, during the  
25 first seven (7) days ("acclimation period") following an alarm system installation. The alarm

1 administrator may grant an alarm user's request for an exemption from this waiting period based upon  
2 a determination that special circumstances substantiate the need for the exemption.

3 B. A monitoring company shall:

4 (1) Report alarm signals by using telephone numbers designated by the alarm  
5 administrator;

6 (2) Use enhanced call verification for every alarm signal, except for duress or  
7 holdup alarm activation, before initiating an alarm dispatch request;

8 (3) Communicate alarm dispatch requests to the regional emergency  
9 communications center in a manner and form determined by the alarm administrator;

10 (4) Communicate cancellations to the regional emergency communications  
11 center in a manner and form determined by the alarm administrator;

12 (5) Communicate any available information (north, south, front, back, floor, etc.)  
13 about the location on all alarm signals related to the alarm dispatch request;

14 (6) Communicate nature of alarm (for example: burglary, fire, robbery, panic,  
15 duress, silent, audible, interior or perimeter);

16 (7) Provide alarm user registration number when requesting law enforcement  
17 dispatch;

18 (8) After an alarm dispatch request, promptly advise the regional emergency  
19 communications center if the monitoring company knows that the alarm user or the responder  
20 is on the way to the alarm site;

21 (9) Contact the alarm user or responder within twenty-four (24) hours via mail,  
22 fax, telephone or other electronic means when an alarm dispatch request has been made; and

23 (10) Upon the effective date of this Ordinance, monitoring companies shall  
24 maintain for a period of at least one (1) year from the date of the alarm dispatch request,  
25 records relating to alarm dispatch requests. Records shall include the name, registration

1 number, address and telephone number of the alarm user, the alarm system zone(s) activated,  
2 the time of alarm dispatch request and evidence of an attempt to verify. The alarm  
3 administrator may request copies of such records for individually named alarm users. If the  
4 request is made within sixty (60) days of an alarm dispatch request, the monitoring company  
5 shall furnish requested records within three (3) business days of receiving the request. If the  
6 records are requested between sixty (60) days to one (1) year after an alarm dispatch request,  
7 the monitoring company shall furnish the requested records within thirty (30) days of  
8 receiving the request.

9 C. A monitoring company that purchases alarm system accounts from another person  
10 shall notify the alarm users that the alarm users need to notify the alarm administrator that the alarm  
11 registration needs to be updated with the name and contact information of the new alarm installation  
12 company that is servicing the alarm site and the monitoring company.

13 D. Upon the effective date of this Ordinance, monitoring companies shall provide the  
14 alarm administrator with an existing customer list in a format acceptable to the alarm administrator to  
15 assist the alarm administrator with creating tracking data.

16 E. Monitoring companies shall provide a monthly report to the alarm administrator by  
17 the twenty-fifth day of the month listing all new alarm systems, which the monitoring company  
18 contracted to monitor during the previous month. Such monthly report shall also include the  
19 cancelled alarm systems, if any. Each report shall include at the minimum the name, address and  
20 phone number of the alarm user and the address of the alarm site. Nothing in this Ordinance shall  
21 prohibit the use of such information for legitimate public safety purposes. A fine in accordance with  
22 Section 20-5.14 SFCC 1987 for each monthly report that is overdue shall be assessed to any  
23 monitoring company that fails to provide this report by this deadline.

24 F. A fine, in accordance with Section 20-5.14 SFCC 1987, shall be assessed to a  
25 monitoring company that fails to establish procedures for accepting cancellations from alarm users

1 and for promptly conveying cancellation notification to the regional emergency communications  
2 center or for failure to perform any of the duties in this section.

3 **Section 13. A new Section 20-5.11 SFCC 1987 is ordained to read:**

4 **20-5.11 [NEW MATERIAL] Duties and Authority of the Alarm Administrator.**

5 A. The alarm administrator shall obtain reports from the regional emergency  
6 communications center that include:

- 7 (1) Alarm dispatch requests;
- 8 (2) Cancellations of alarm dispatch requests; and
- 9 (3) Verification that the monitoring company used enhanced call verification  
10 when the alarm dispatch request was made.

11 B. The alarm administrator shall establish a procedure to record alarm dispatch requests  
12 for the purpose of maintaining records, which shall include, without limitation the following  
13 information:

- 14 (1) Identification of the registration number for the alarm site;
- 15 (2) Address of the alarm site;
- 16 (3) Date and time alarm dispatch request was received;
- 17 (4) Name of the monitoring company and the monitoring operator's name or  
18 number;
- 19 (5) Date and time of law enforcement officer arrival at the alarm site;
- 20 (6) Zone and zone description, if available;
- 21 (7) Weather conditions, mass power failures or surges, or mass telephone line  
22 interruptions;
- 23 (8) Name of alarm user /or alarm user's representatives that were contacted by  
24 the monitoring company prior to the alarm dispatch request;
- 25 (9) Name of alarm user or representative that was available at the alarm site

1 when law enforcement was present;

2 (10) Identification of the responsible alarm installation company or monitoring  
3 company;

4 (11) Whether law enforcement officer was unable to locate the address of the  
5 alarm site; and

6 (12) Cause of alarm signal, if known.

7 C. The alarm administrator shall determine whether the alarm signal was a false alarm  
8 based upon the information collected in paragraph B. above. Alarms caused by acts of nature such as  
9 severe weather conditions that cause mass activations which are beyond the control of the alarm user,  
10 or signal activations caused by documented mass power failure or surges which are beyond the  
11 control of the alarm user, or mass telephone line interruptions which are beyond the control of the  
12 alarm user shall not be counted as a false alarm.

13 D. The alarm administrator shall establish a procedure to notify the alarm user, in  
14 writing, of a false alarm. The notice shall include the following information:

15 (1) The date and time of law enforcement response to the false alarm;

16 (2) The identification number of the responding law enforcement officer;

17 (3) A statement urging the alarm user to ensure that the alarm system is properly  
18 operated, inspected, and serviced in order to avoid false alarms and resulting fines;

19 (4) The amount of the fine, if any;

20 (5) A statement that city response to a false alarm shall be suspended after the  
21 tenth (10<sup>th</sup>) false alarm (excluding duress, holdup and panic alarms) in a twelve (12) month  
22 period; and

23 (6) A description of the appeals procedure available to the alarm user.

24 E. The alarm administrator may require a conference with an alarm user and the alarm  
25 installation company and/or monitoring company responsible for the repair or monitoring of the alarm

1 system to review the circumstances of each false alarm. For these purposes, the alarm installation  
2 company shall have contact information for the alarm response manager for each alarm site on record  
3 with the alarm administrator.

4 F. The alarm administrator may create and implement an alarm user awareness class.  
5 The alarm administrator may request the assistance of associations, alarm companies and law  
6 enforcement agencies in developing and implementing the class. The class shall inform alarm users  
7 of the problems created by false alarms and teach alarm users how to avoid generating false alarms.

8 G. The alarm administrator may require an alarm user to remove a holdup alarm device  
9 that is a single action, non-recessed button, or have it replaced with an acceptable dual-action or  
10 recessed device after the occurrence of a false holdup alarm.

11 H. The alarm administrator may require an alarm user to remove the duress or panic  
12 alarm capability from the alarm user's alarm system after the occurrence of a false duress or panic  
13 alarm.

14 I. The alarm administrator shall make available to the alarm user this Ordinance and/or  
15 an Ordinance summary sheet.

16 J. The alarm administrator shall refer commercial alarm users which have exceeded two  
17 false alarms in a twelve (12) month period for fire, smoke, carbon monoxide or heat false alarms to  
18 the city of Santa Fe fire department, fire marshal's office for inspection.

19 K. If the alarm administrator identifies an alarm installation company that is operating  
20 within the municipal boundaries of the city of Santa Fe without a license from the construction  
21 industries division of the New Mexico regulation and licensing department or without a valid Santa  
22 Fe business license, the alarm administrator shall report that business to the authorized state or local  
23 enforcement authority.

24 L. The alarm administrator and all employees or representatives of the city of Santa Fe  
25 shall, in the interest of public safety, hold in confidence:

(1) all information contained in and gathered through the alarm registration applications;

(2) records relating to alarm dispatch requests;

(3) applications for appeals;

(4) customer lists obtained from alarm installation companies; and

(5) customer lists obtained from monitoring companies.

**Section 14. A new Section 20-5.12 SFCC 1987 is ordained to read:**

**20-5.12 [NEW MATERIAL.] Suspension of Response.**

A. The alarm administrator may suspend law enforcement response to an alarm site by revoking the alarm registration if it is determined that:

(1) The alarm user has eleven (11) or more false alarms in a twelve (12) month period;

(2) There is a statement of a material fact known to be false in the application for a registration;

(3) The alarm user has failed to make timely payment of a fee or fine assessed under Section 20-5.14 SFCC 1987; or

(4) The alarm user has failed to submit a written certification from an alarm installation company, that complies with the requirements of this Ordinance, stating that the alarm system has been inspected and repaired (if necessary) and/or additional training has been conducted by the alarm installation company.

B. A person commits an offense if the person operates an alarm system during the period in which the alarm registration is revoked and is subject to enforcement and penalties set in Sections 20-5.14 SFCC 1987.

C. A monitoring company commits an offense if it continues alarm dispatch requests to an alarm site after notification by the alarm administrator that the registration has been revoked and is

1 subject to enforcement and penalties set forth in Section 20-5.14 SFCC 1987.

2 D. Unless there is separate indication that there is a crime in progress, the city police  
3 department shall refuse response to an alarm dispatch request at an alarm site for which the alarm  
4 registration is revoked.

5 E. If the alarm registration is reinstated pursuant to Section 20-5.13 SFCC 1987, the  
6 alarm administrator may again suspend law enforcement response to the alarm site by again revoking  
7 the alarm registration if it is determined that two false alarms have occurred within one year period  
8 after the reinstatement date.

9 **Section 15. A new Section 20-5.13 SFCC 1987 is ordained to read:**

10 **20-5.13 [NEW MATERIAL.] Reinstatement.**

11 A. An alarm user whose alarm registration has been revoked may, at the discretion of  
12 the city, have the alarm registration reinstated by the alarm administrator if the alarm user:

- 13 (1) Pays a reinstatement fee in accordance with Section 20-5.14 SFCC 1987;  
14 (2) Pays, or otherwise resolves, all outstanding citations and fines; and  
15 (3) Provides satisfactory evidence to the alarm administrator that the alarm  
16 system has been inspected and repaired (if necessary) by the alarm installation company;  
17 and/or that additional training in the proper use of the alarm system was provided by the  
18 alarm installation company for all alarm users.

19 B. Additionally, the alarm administrator may require one or more of the following as a  
20 condition to reinstatement:

- 21 (1) Proof that an employee of the alarm installation company or monitoring  
22 company caused the false alarm;  
23 (2) A certificate showing that the alarm user has successfully completed the  
24 alarm user awareness class as provided under 20-5.11 SFCC 1987;  
25 (3) Proof that an upgrade to the alarm control panel was made to meet

ANSI/SIA Control Panel Standard CP-01;

(4) A written statement from an independent inspector designated by the city that the alarm system has been inspected and is in good working order;

(5) Confirmation that all motion detectors are dual technology type;

(6) Confirmation that the monitoring company will not make an alarm dispatch request unless the need for law enforcement is confirmed by audio or video verification; or

(7) Confirmation that the monitoring company will not make an alarm dispatch request unless the need for law enforcement is confirmed by a person at the alarm site.

**Section 16. A new Section 20-5.14 SFCC 1987 is ordained to read:**

**20-5.14 [NEW MATERIAL.] Fees and Fines.**

**Section 17. A new Section 20-5.15 SFCC 1987 is ordained to read:**

**20-5.15 [NEW MATERIAL.] Poverty Exemption.**

A. Qualified alarm users shall be exempt from the alarm system registration and renewal fees.

B. Alarm users who qualify for a poverty exemption shall be required to pay fines.

C. To qualify for the exemption, the following shall apply:

(1) The alarm user shall file an affidavit setting out the following facts:

(a) The customer is the head of the household and residing at the alarm site; and

(b) The household's gross annual income does not exceed one hundred twenty percent (120%) of the most recent federal poverty guidelines issued by the U.S. Department of Health and Human Services.

(c) The alarm user shall submit documents as required by city policy in order to verify income.

(2) The alarm user shall consent to any reasonable investigation and substantiation by the city of the facts stated in the affidavit.

(3) The filing of a false statement or otherwise fraudulently obtaining the benefits of this section is a violation of the Santa Fe City Code and is punishable pursuant to Section 1-3 of this Code and shall entitle the city to recover any fraudulently exempted amount and applicable interest penalties.

**Section 18. A new Section 20-5.16 SFCC 1987 is ordained to read:**

1           **20-5.16 [NEW MATERIAL.] Appeals.**

2           A.       Any alarm user, unregistered alarm user, alarm installation company or monitoring  
3 company that receives a notice of a false alarm or a notice of fees or fines due under this Ordinance  
4 may file an appeal with the alarm administrator setting forth the reasons for the appeal within thirty  
5 (30) days from the date the notice was mailed by the alarm administrator.

6           B.       A hearing officer appointed by the city manager shall conduct a formal hearing  
7 within thirty (30) days of the receipt of the appeal by the alarm administrator. The alarm administrator  
8 shall give written notice by certified mail to the appellant at least ten days prior to the hearing.

9           C.       The hearing officer shall make a decision on the basis of the preponderance of  
10 evidence presented at the hearing. The hearing officer shall render a decision within thirty (30) days  
11 after the date of the hearing. The hearing officer shall affirm or reverse the decision of the alarm  
12 administrator.

13          D.       A filing fee in accordance with Section 20-5.14 shall accompany the notice of  
14 appeal. The filing fee shall be refunded if the hearing officer finds in favor of the appellant. The  
15 failure of an appellant to appear at the appeal hearing shall extinguish the appeal.

16           **Section 19.     A new Section 20-5.17 SFCC 1987 is ordained to read:**

17           **20-5.17 [NEW MATERIAL.] Designation of Revenue.**

18           The revenue generated through the Alarm System Ordinance shall be placed in a  
19 special revenue fund to be designated for contracted services of a third party alarm  
20 administrator, if applicable, to implement and maintain this Ordinance and for funding alarm  
21 user classes. Excess revenue received through this Ordinance shall be used for use by the city  
22 of Santa Fe police department for service enhancement and public safety.

23           **Section 20.     A new Section 20-5.18 SFCC 1987 is ordained to read:**

24           **20-5.18 [NEW MATERIAL/] Public Education.**

25           The alarm administrator shall engage in a continuing program to explain and clarify the

1 purposes and requirements of the Alarm System Ordinance to citizens affected by it, including alarm  
2 users, alarm installation companies and alarm monitoring companies. Such a program may include  
3 publication of a brochure explaining the provisions of the Ordinance.

4 **Section 21. A new Section 20-5.19 SFCC 1987 is ordained to read:**

5 **20-5.19 [NEW MATERIAL.] Severability.**

6 If any provision, clause, sentence or paragraph of Article 20-5 SFCC 1987 or the application  
7 thereof to any person or circumstances shall be held as invalid, such invalidity shall not affect the  
8 other provisions of this section. The Article can be given effect without the invalid provision or  
9 application, and the provisions of this section are declared to be severable.

11 **20-5.20 [NEW MATERIAL.] General Penalty.**

12 In lieu of the fines specified in Section 20-5.14 SFCC 1987, the city may file a complaint  
13 against any person, firm, corporation, partnership or other entity that violates any provision of the  
14 Alarm System Ordinance, in accordance with Section 1-3.1 SFCC 1987. Each violation is a separate  
15 and distinct offense.

16 **Section 23. A new Section 20-5.21 SFCC 1987 is ordained to read:**

17 **20-5.21 [NEW MATERIAL.] Effective Date.**

18 Article 20-5 SFCC 1987 adopted by Ordinance No. \_\_\_\_\_ shall be effective  
19 \_\_\_\_\_, 2009, ninety (90) days from the date of its adoption. Upon the effective date of  
20 this Ordinance alarm users shall have a grace period of ninety (90) days to procure an alarm user  
21 registration. During this grace period, no fine for operation of an alarm system without a registration  
22 shall be charged, provided that, after this grace period expires, alarm users shall be subject to the fees,  
23 fines and penalties provided for in this Ordinance.

24 **Section 24. Article 20-5 SFCC 1987 shall be reviewed eighteen months from the date**  
25 **of adoption.**

1           **Section 25.    [REPEAL.]    The following definition in Section 18-1.2 SFCC 1987**
