8.1.2 SFHP manufactured home lots shall be sold to and occupied by an eligible owner-occupant household. An eligible owner-occupant household for a SFHP manufactured home lot shall meet eligibility requirements as follows:

a. Income – The household income of a SFHP manufactured home lot buyer shall not exceed the defined Income Ranges for a 3 person household, as set forth in Section 6, regardless of the household size of the SFHP buyer, except as allowed by Section 8.1.4.

b. Liquid Assets – If the SFHP buyer has liquid assets exceeding \$25,000, additional income shall be imputed on ~~at the rate of 20%~~ of the liquid assets exceeding \$25,000. This

imputed income shall be added to the yearly income of the SFHP buyer for the purpose of determining income eligibility. Liquid assets include cash, cash equivalents, stocks, bonds, real estate, and other assets readily converted to cash. Liquid assets do not include retirement funds that are not readily accessible without the payment of a penalty, trust funds not controlled by the potential purchaser, personal property such as furniture or automobiles, educational accounts committed to a dependent, or other assets not readily accessible to the purchaser. 3. Currently owns and occupies a manufactured home as his only residence.

Such certification is valid for 6 months following the execution of the purchase contract. If the 6 months elapses before closing of the unit for which the SFHP buyer is under contract, the household's eligibility shall be re-certified and such certification shall be valid for an additional 90 day period.

b. If a potential SFHP buyer, who was initially determined to be eligible for an SFHP unit and has executed a purchase contract for such unit, is subsequently determined upon recertification not to be eligible for the SFHP unit for which s/he has signed a purchase contract because of an increase in the household income, the Office of Affordable Housing, at its sole discretion, may approve the sale of the SFHP unit to the potential SFHP buyer if one of the following conditions is met:

1. If the potential SFHP buyer's income does not exceed the maximum AMI percentage for the original income range by more than 5 percentage points, the potential SFHP buyer may be allowed to purchase the SFHP unit or manufactured unit at the original SFHP home price or SFHP manufactured home lot price.

2. If the potential SFHP buyer's income exceeds the maximum AMI percentage for the original income range by more than 5 percentage points, and the income is within a higher SFHP income range, the SFHP buyer may be allowed to purchase the SFHP home or SFHP manufactured unit at the SFHP price applicable for the new income range, provided that the developer replaces the SFHP unit in the lower income range with a unit that was originally intended for the higher income range.

8.1.4 Emergency workers , first responders, teachers or related educational employees -- An eligible buyer meeting this criteria working in Santa Fe County whose household income exceeds 100% of AMI but does not exceed 120% of AMI shall be eligible to purchase an SHFP unit in Income Range 4. <i>Income Range</i>	<i>Affordable Home Price Studio</i>	<i>Affordable Home Price 1 bedroom</i>	<i>Affordable Home Price 2 bedroom</i>	<i>Affordable Home Price 3 bedroom</i>	<i>Affordable Home Price 4 bedroom</i>
Income Range 2	\$74,500	\$85,000	\$97,000	\$109,000	\$122,000
Income Range 3	\$100,500	\$111,000	\$126,000	\$142,000	\$158,000
Income Range 4	\$125,500	\$136,000	\$155,000	\$175,000	\$194,000

8.2.2 The actual sale price shall include all of the following costs to the buyer as described on the settlement sheet for the sale:

- a. The sales price of the home
- b. Any sales commission which is payable by the buyer
- c. Any other settlement costs charged to the buyer which in Santa Fe are normally charged to the seller.

8.2.3 The SFHP Affordable Home Prices and Affordable Manufactured Home Lot Prices are effective for a specific SFHP Home or Manufactured Home Lot only if the SFHP buyer will not be required to pay a monthly fee such as a homeowners' association fee, condominium fee or common area fee. If a SFHP home or manufactured home lot is proposed with such fees, the developer shall lower the SFHP home price or SFHP manufactured home lot price so that the buyer's mortgage or manufactured home loan principal amount and, accordingly, the buyer's monthly mortgage payments, are reduced by the amount of the fee that exceeds seventy-five dollars (\$75) a similar amount. The adjusted prices shall be reflected in the SFHP Agreement.

8.2.4 The actual sale price of a SFHP home may not be achieved by use of subsidies from any source other than the developer, so that, given the scarcity of subsidy funds, all SFHP applicants will be treated equally and fairly. However, the City encourages the use of such subsidies to reduce prices of SFHP homes from the maximum amounts allowed by SFHP or a lesser amount downward, or to fund or partially fund down payments and closing costs of qualified buyers. The restriction on use of subsidies shall not apply to non-profit affordable housing organizations.

8.2.5 Allowable Option Upgrades

a. The Affordable Home Price may be increased at the request of the SFHP home buyer by the price of Allowable Option Upgrades, not to exceed the Maximum Option Upgrade Allowance.

b. At the time of the enactment of SFHP, the Maximum Option Upgrade Allowance shall be \$5,000. Beginning in 2006 and every year thereafter, the Office of Affordable Housing

shall review and adjust the Maximum Option Upgrade Allowance based on changes in the Area Median Income for the previous 12 months.

c. The following features are considered standard features that must be included in a SFHP home and for which the builder shall not charge extra:

New kitchen range

New kitchen refrigerator

Hookups for clothes washer, dryer, and built-in dishwasher

Central heating systems.

d. The SFHP home shall include a home warranty meeting the requirements of state law. No SFHP Developer or general contractor, subcontractor or other professional shall be permitted to request that an SFHP homebuyer sign a waiver of any warranty required by state law. Any such waiver shall be considered null and void.

8.3 Adjustment of SFHP Home Prices

8.3.1 Beginning in 2006 and annually thereafter, the Office of Affordable Housing shall review and adjust the Affordable Home Price in each Income Range and for each unit size by the same percentage change as the percentage change in Area Median Income from the previous 12 months.

8.3.2 The Office of Affordable Housing shall publish new Affordable Home Prices immediately upon adjustment and, within 30 days, shall report to the Governing Body the new Affordable Home Prices.

8.3.3. Beginning in 2007 and every two years thereafter, the Office of Affordable Housing shall review the factors and assumptions used to determine housing expense ratios in Section 8.6 and shall report to the Governing Body on whether or not housing expense ratios associated with the Affordable Home Prices, as adjusted for changes in AMI, are still at or below 33% for households within each applicable Income Range. The Office of Affordable Housing may make recommendations to the Governing Body to amend the SFHP ordinance at any time if it determines that the housing expense ratios associated with the affordable home prices exceed 33% due to changes in factors such as average interest rates or taxes. Nothing herein shall prevent the Governing Body from amending the SFHP ordinance without such a recommendation from the Office of Affordable Housing.

8.4 Establishment of SFHP Home Prices - SFHP home prices are established to maintain a target housing expense ratio of no more than 33% for the assumed household size with the lowest household income in each applicable Income Range, with the exception of the affordable home price for a studio. The affordable home price for a studio home is based on an estimated marginal cost savings between a studio and a 1 bedroom home of \$70 per square foot. Since the

assumed household size for a studio is 1 person the housing expense ratio for the lowest income household will be lower than 33%

8.5 Factors in Determining Housing Expense Ratios -- The following assumptions are used in the determination of housing expense ratios:

- a. Assumed household sizes:

<i>Unit Size</i>	<i>Assumed household size</i>
1 Bedroom	1 person
2 Bedroom	2 person
3 Bedroom	3 person
4 Bedroom	4 person

(Note: These assumed household sizes are for determination of housing expense ratios only. Minimum household sizes are contained in Section 8.1)

- b. Interest rate: 6.0%
- c. Term of loan: 30 years
- d. Private mortgage insurance: 0.075% of home price per month
- e. Hazard insurance: 0.0283% of home price per month
- f. Taxes: 0.0467% of home price per month

8.6 Sample Determination of Housing Expense Ratio - For purposes of example, following are steps used to determine the housing expense ratio for a 3 bedroom home and a 3 person household in Income Range 3:

- a. Determine Home Size: 3 Bedroom
- b. Determine Applicable Income Range: Income Range 3 (more than 65% but not more than 80%)
- c. Determine Home Price: \$142,000
- d. Determine Assumed Household size: 3 person
- e. Determine median income for 3 person household (as published by HUD):
\$59,400
- f. Determine lowest income for applicable Income Range: $65\% \times \$59,400 =$
\$38,610

- g. Determine monthly income: $\$38,610 / 12 = \$3,217.50$
- h. Determine Principal and Interest Payment (using mortgage payment calculator):
\$851
- i. Determine Private Mortgage Insurance: $0.075\% \times \$142,000 = \107
- j. Determine Hazard Insurance: $0.0283\% \times \$142,000 = \40
- k. Determine taxes: $0.0467\% \times \$142,000 = \66
- l. Determine total monthly payment: $\$851 + \$107 + \$40 + \$66 = \$1,064$
- m. Determine housing expense ratio: $\$1,064 / \$3,217.50 = 33\%$

8.7 SFHP Manufactured Home Lot Prices

8.7.1 SFHP manufactured home lot prices are established as 25% of the cost of a 3 bedroom home. SFHP manufactured home lot prices apply to all households, regardless of size, with a household income within each applicable Income Range.

8.7.2 Sale prices of SFHP manufactured home lots being sold to an eligible owner-occupant pursuant to a SFHP agreement shall be at or below the following amounts:

<i>Income Range</i>	<i>Affordable Manufactured Home Lot Price</i>
Income Range 2	\$27,250
Income Range 3	\$35,500
Income Range 4	\$43,750

8.7.3 Beginning in 2006 and annually thereafter, the Office of Affordable Housing shall review and adjust the Affordable Manufactured Home Lot Price in each Income Range by the same percentage change as the percentage change in Area Median Income from the previous 12 months.

8.7.4 The Office of Affordable Housing shall publish new Affordable Manufactured Home Lot Prices immediately upon adjustment and, within 30 days, shall report to the Governing Body the new Affordable Manufactured Home Lot Prices.

8.8 Required Number of SFHP Units in a Development – Thirty percent of the total number of dwelling units or manufactured home lots offered for sale in an SFHP development shall be SFHP Homes or SFHP Manufactured Home Lots, as follows:

- a. Ten percent (10%) of the total dwelling units or manufactured home lots shall be sold at or below the Affordable Home Price or Affordable Manufactured Home Lot Price, as applicable, for Income Range 2.

b. Ten percent (10%) of the total dwelling units or manufactured home lots shall be sold at or below the Affordable Home Price or Affordable Manufactured Home Lot Price, as applicable, for Income Range 3, and

c. Ten percent (10%) of the total dwelling units or manufactured home lots shall be sold at or below the Affordable Home Price or Affordable Manufactured Home Lot Price, as applicable, for Income Range 4.

8.8.1 If an applicant exceeds the percentage in Income Range 2 or Income Range 3 as set forth above, the requirement in any higher Income Range may be reduced by the same percentage.

8.8.2 The whole number resulting from the formula shall be the number of SFHP units required to be constructed or created and the remaining fraction may be satisfied with the fractional unit fee described in Section 8.9.

8.8.3 In the event that two or fewer SFHP Homes or SFHP manufactured home lots are required, the SFHP Homes or manufactured home lots shall be affordable to income range 3 or income range 2.

8.8.4 The required number of SFHP Dwelling Units or SFHP Manufactured Home Lots shall be determined based on the total number of units proposed, including any units proposed as a result of the density bonus described in Section 13.2.

8.9 Providing “Fractions” of Homes –If the calculation described in Section 8.8 results in a fraction, the whole number resulting from the formula shall be the number of SFHP units required to be constructed or created and the remaining fraction may be satisfied with the fractional unit fee. The fee shall be the base fractional fee multiplied by remaining fraction. The base fractional fee shall be half of the Affordable Home Price of a 3 Bedroom Unit in Income Range 2. This contribution is not and shall not be used as an alternate means of compliance. The contribution shall be made prior to recording the SFHP Agreement. The proceeds of the fee shall be credited to the housing trust fund approved by the governing body.

8.10 Minimum Structural Requirements for SFHP Homes - SFHP homes shall be built to conform to local, state and federal laws, and these additional criteria concerning design, equipment and physical features:

8.10.1

a. **Minimum Bathrooms and Floor Area** - SFHP homes shall be constructed according to the minimum requirements for bathrooms and square footage of habitable residential space described below:

Unit Type	Minimum Number of Bathrooms	Minimum Square Footage
Studio	1	750 square feet
1 Bedroom	1	850 square feet

2 Bedrooms	1	1,000 square feet
3 Bedrooms	2	1,150 square feet
4 Bedrooms	2	1,250 square feet

Minimum floor areas of habitable residential space include partitions, closets, heated utility rooms, halls and stairways but exclude attics, porches, unfinished basements, garages and unheated storage space.

b. The minimum sizes specified shall not apply to units converted from existing rental units to ownership units. In such developments, the minimum sizes shall be the same as the sizes of the non-SFHP Homes.

c. The applicant may request smaller minimum sizes if he demonstrates, subject to confirmation by the Office of Affordable Housing, that the required sizes are larger than the sizes of the non-SFHP Homes.

8.10.2 Equipment and equipment hookups – Each home shall, at a minimum, include:

- a. a new kitchen range and refrigerator,
- b. hookups for a clothes washer, dryer and built-in dishwasher,
- c. central heating systems. Resistance electric heating is not permitted unless the applicable homes have exceptionally low heat loads and the City approves this alternate in the SFHP Agreement or otherwise in writing.

8.10.3 Design and location – The proposed design and location of the affordable units shall be reviewed and approved by the Office of Affordable Housing in order to achieve architectural and landscaping integration with other units in the development.

8.10.4 Minimum warranty – The seller of an SFHP home shall provide a warranty of at least one year covering defects in materials and workmanship, in addition to any manufacturers’ warranties or warranties provided by a contractor or subcontractor, such as warranties on roofing and appliances. The minimum one year warranty on defects in materials and workmanship does not preclude the seller or any person from providing a warranty of a longer period. No developer, seller, general contractor, subcontractor shall be permitted to request that an SFHP homebuyer sign a wavier of any required or standard warranty. Any such waiver shall be considered null and void.

8.11 Required Mix Of Unit Types

8.11.1 So that SFHP Homes will serve a wide range of household sizes, the mix of unit types in for-sale SFHP developments shall be determined in accordance with the following:

Unit Size	Required percentage of SFHP Homes
-----------	-----------------------------------

Studio, 1 Bedroom and 2 Bedroom	25%
3 Bedroom	50%
4 Bedroom	25%

If fractions result from this formula, round up for .5 or more and round down for less than .5. If rounding results in a total that is more than the total number of SFHP units required, the smallest required unit(s) will be eliminated so that the total equals the required number. The Office of Affordable Housing shall have the authority to further specify the required percentage of studio, 1-bedroom and 2-bedroom homes, taking into consideration the type of non-SFHP units offered for sale in the development.

8.11.2 The SFHP developer may request approval from the Office of Affordable Housing to provide a mix of unit sizes that varies from the above. Factors that may be considered as a basis for approval of a different unit size mix include, but are not limited to:

- a. A different mix would better match the mix of non-SFHP homes within the development
- b. A different mix would better match the consumer demand for SFHP homes

8.11.3 The mix of type of SFHP Homes in a development converted from existing rental units to ownership units shall be in proportion to the mix of non- SFHP Homes offered for sale.

8.11.4 In a development of detached ownership units, the SFHP units shall be detached. In a development with a mix of detached and attached ownership units, the proportion of detached SFHP ownership units shall be no less than the proportion of detached non-SFHP ownership units.

8.12 Marketing To and Certifying Buyers for SFHP Homes – SFHP developers shall market SFHP homes or SFHP manufactured home lots in accordance with the following requirements:

8.12.1 An SFHP Home may not be marketed and sold to a household that does not meet the eligibility requirements described in Section 8.1.2.

8.12.2 Marketing Materials – Brochures, advertisements and other marketing materials shall clearly state the policies of the SFHP program with regard to pricing of SFHP homes, long term affordability liens, and buyer eligibility (both of the program in general and the eligibility to buy specific homes).

8.12.3 Purchase contracts – SFHP developers and SFHP buyers may execute only purchase contracts that are approved for form by the City and include language provided by the City, which will require that an appropriate disclosure form be provided to and explained to the SFHP buyer prior to execution of the contract. The disclosure form will explain any deed restriction, restrictive covenants and/or liens that are placed on the SFHP home to ensure long-term affordability.

8.13 Allocation of SFHP Units– SFHP is established to benefit all residents of the City and, as such, it is the policy of the City that all eligible potential buyers have the same opportunity to purchase SFHP homes or SFHP manufactured home lots.

8.13.1 The City or its agent shall maintain ~~and make available~~ lists of prospective SFHP buyers who have passed preliminary prequalifications for financing. The city or its agent shall maintain information on basic homebuyer characteristics, such as household size and income by AMI to monitor the match between production and affordable housing demand. For SFHP developments for which the city or its agent expects immediate effective demand to outstrip the supply, the city or its agent shall establish and maintain an equitable process for allocating rights to purchase the homes or manufactured home lots. In developments where the city or its agent has established such a process, the developer shall be required to follow the process when selecting SFHP buyers. For developments other than those described above, the developer shall establish and maintain an equitable process of marketing homes and manufactured home lots, including waiting lists where demand exceeds supply.

8.13.2 ~~Each development with SFHP homes or SFHP manufactured home lots for sale, including annexations subject to SFHP, shall engage a qualified organization or organizations to provide marketing services, income certifications, homebuyer training, maintenance of waiting lists, and home purchase and finance counseling to prospective SFHP buyers. For each development with SFHP homes or SFHP manufactured home lots for sale, including annexations subject to SFHP, the office of affordable housing shall designate a qualified organization(s) to provide income certifications and maintenance of waiting lists.~~ The Office of Affordable Housing shall establish a fair and competitive process for selecting the organization or organizations providing these services, which process shall provide an opportunity for the developer to provide input as to the organization(s) selected. The organization and the SFHP developer shall enter into a written agreement that describes the scope of services and, if appropriate, fee structure. The SFHP developer may not terminate such agreement with the organization without the consent of the office of affordable housing. Notwithstanding those requirements, and in order to assure access to SFHP homes and manufactured home lots by all potentially qualified SFHP buyers, any other service provider operating a homebuyer training, counseling and certification program approved by the Office of Affordable Housing may refer its clients to the selected organization for possible purchase of the SFHP homes or manufactured home lots. A SFHP developer may enter into agreements with outside entities to provide marketing or other services, which agreement shall not require approval from the Office of Affordable Housing.

8.13.3 Prior to executing a purchase contract for any SFHP Home or SFHP manufactured home lot, the prospective SFHP buyer shall be certified as meeting the SFHP requirements described in Section 8.1.2 by the city or its agent.

8.14 Filing of Deed Restrictions and Liens - A SFHP developer selling a SFHP Home or SFHP Manufactured Home Lot shall cause to be recorded in the County land records, simultaneous with the recording of the deed of sale, a form of deed restriction, or restrictive covenant, or other legal instrument that fulfills the requirements of Section 12 with regard to controls placed on the occupancy and resale of SFHP homes. The effect of the recordation of said deed restriction shall be to create, in accordance with state law, an obligation that runs with

the property. The City must approve the form of such deed restrictions prior to recordation. Initial affordability shall be achieved by including in the SFHP agreement terms of an escrow instruction requiring certification of SFHP compliance by an escrow agent.

8.15 Verification and Certification by the City of Completed Sales - City staff may determine if each completed SFHP sale in a SFHP development complies with the ordinance, or if not, that appropriate action is taken. The procedures are as follows:

8.15.1 Notice of sale of a SFHP Unit – The City must receive notice of the sale in writing and also be given: (a) a copy of the settlement sheet for the sale of the property, (b) copies of any legal instruments related to the City’s long-term affordability requirements in the exact form that they will be executed and filed to meet requires of the SFHP Agreement, and (c) bills, statements or other documents indicating any other costs associated with the sale of the SFHP home or SFHP manufactured home lot. The City must approve the form and content of any legal instruments related to long-term affordability prior to recordation.

8.15.2 Sales in compliance – Sales in compliance will be certified as such and shall count toward fulfillment of the developer’s SFHP Agreement.

8.15.3 Sales not in compliance – When a sale is found to be not in compliance with the SFHP Ordinance or a SFHP agreement or the information is insufficient to determine compliance, the owner will be notified in writing and have the opportunity to rectify the noncompliance or information lacking with respect to that SFHP home. However, in the event of such noncompliance, the City shall not certify any sale of a SFHP home, and reserves the right not to certify the sale of any further non-SFHP units, while recognizing that this will create an encumbrance and title flaw if any sale is made without such certification.

8.16 Rental Prohibition – SFHP Homes and SFHP Manufactured Home Lots shall not be rented to a second party, except as approved in writing by the Office of Affordable Housing for instances in which the owner is under duress by reason of unemployment, family medical emergencies, or inability to sell the home for an amount equal to or greater than the original sale price, or other unique circumstances of family hardship. In providing written permission, the Office of Affordable Housing shall specify a limit on the rental, not to exceed 18 months.

9.1.4 Use of rent subsidies by tenants – No owner or agent of a rental development subject to SFHP may discriminate against a SFHP tenant for proposing to use federal or other rent subsidies, nor can such subsidies be sued to achieve a required SFHP contract rent.

9.2 SFHP Rental Rates

9.2.1 The monthly rent of a SFHP rental unit (~~excluding utility costs to be paid by the tenant~~) for both rent and utilities being rented pursuant to a SFHP Agreement shall be at or below the following amounts:

Income Range	Affordable Rent Efficiency/Studio or 1 Bedroom	Affordable Rent 2 Bedrooms	Affordable Rent 3 Bedrooms	Affordable Rent 4 Bedrooms

9.3 Adjustment of SFHP Rental Rates

9.3.1 Beginning in 2006 and annually thereafter, the Office of Affordable Housing shall review and adjust the Affordable Rent in each Income Range and for each unit size by the same percentage change as the percentage change in Area Median Income from the previous 12 months.

9.3.2 The Office of Affordable Housing shall publish new Affordable Rents immediately upon adjustment and, within 30 days, shall report to the Governing Body the new Affordable Rents.

9.3.3 Beginning in 2007 and every two years thereafter, the Office of Affordable Housing shall review the factors and assumptions used to determine housing expense ratios in Section 9.5 and

shall report to the Governing Body on whether or not housing expense ratios associated with the rental rates, as adjusted for changes in AMI, are still at or below 30% for households within each applicable Income Range. The Office of Affordable Housing may make recommendations to the Governing Body to amend the SFHP ordinance at any time if it determines that the housing expense ratios associated with the affordable rents exceed 30% due to changes in market factors. Nothing herein shall prevent the Governing Body from amending the SFHP ordinance without such a recommendation from the Office of Affordable Housing.

9.4 Establishment of SFHP Rental Rates - SFHP rents are established to maintain a target housing expense ratio of no more than 30% for the assumed household size with the lowest household income in each applicable Income Range.

9.5 Factors in Determining Housing Expense Ratios - The following assumptions are used in the determination of housing expense ratios:

- a. Assumed household sizes:

<i>Unit Size</i>	<i>Assumed household size</i>
Studio or 1 Bedroom	1 person
2 Bedroom	2 person
3 Bedroom	3 person
4 Bedroom	4 person

(Note: These assumed household sizes are for determination of housing expense ratios only. Minimum household sizes are contained in Section 8.1)

9.6 Sample Determination of Housing Expense Ratio - For purposes of example, following are steps used to determine the housing expense ratio for a 2-bedroom rental unit and a 2-person household in Income Range 2:

- a. Determine Unit Size: 2 Bedroom
- b. Determine Applicable Income Range: Income Range 2 (more than 50% but not more than 65%)
- c. Determine Affordable Rent: \$660
- d. Determine Assumed Household size: 2 person
- e. Determine median income for 2 person household (as published by HUD):
\$52,800
- f. Determine lowest income for applicable Income Range: $50\% \times \$52,800 =$
\$26,400
- g. Determine monthly income: $\$26,400 / 12 = \$2,200$

h. Determine housing expense ratio: $\$660 / \$2,200 = 30\%$

9.7 SFHP Manufactured Home Lot Rental Rates

a. SFHP manufactured home lot rents are established as 30% of the rent of a 3 bedroom rental unit. SFHP manufactured home lot rents apply to all households, regardless of size, with a household income within each applicable Income Range.

b. Rents of SFHP manufactured home lots being leased to an eligible tenant pursuant to a SFHP agreement shall be at or below the following amounts:

Income Range	Affordable Manufactured Home Lot Rent
Income Range 1	\$134
Income Range 2	\$223
Income Range 3	\$290

c. Beginning in 2006 and annually thereafter, the Office of Affordable Housing shall review and adjust the Affordable Manufactured Home Lot Rent in each Income Range by the same percentage change as the percentage change in Area Median Income from the previous 12 months.

d. The Office of Affordable Housing shall publish new Affordable Manufactured Home Lot Rents immediately upon adjustment and, within 30 days, shall report to the Governing Body the new Affordable Manufactured Home Lot Rents.

9.8 Required Number of SFHP Rental Units in a Development

9.8.1 Fifteen percent of the total number of dwelling units and SFHP manufactured home lots offered for rent in an SFHP development shall be SFHP rental units or SFHP rental manufactured lots, as follows:

a. Five percent (5%) of the total dwelling units or manufactured home lots shall be rented at or below the affordable rent for Income Range 1.

b. Five percent (5%) of the total dwelling units or manufactured home lots shall be rented at or below the affordable rent for Income Range 2.

c. Five percent (5%) of the total dwelling units or manufactured home lots shall be rented at or below the affordable rent for Income Range 3.

9.8.2 If an applicant exceeds the percentage in Income Range 1 or Income Range 2 as set forth above, the requirement in any higher income range may be reduced by the same percentage.

9.8.3 The whole number resulting from this calculation shall be the number of SFHP rental units required to be constructed or SFHP manufactured home lots to be created and the remaining fraction may be satisfied with the fractional unit fee described in Section 9.9.

9.8.4 In the event that two or fewer SFHP rental units or SFHP manufactured home lots are required, the SFHP rental units or manufactured home lots shall be affordable to Income Range 1 or Income Range 2.

9.9 Providing “Fractions” of Units – If the calculation described in Section 9.8 results in a fraction, the whole number resulting from the formula shall be the number of SFHP units required to be constructed or created and the remaining fraction may be satisfied with the fractional unit fee. The fee shall be the base fractional fee multiplied by remaining fraction. The base fractional fee shall be half of the Affordable Home Price of a 3 Bedroom Unit in Income Range 2. This contribution is not and shall not be used as an alternate means of compliance. The contribution shall be made prior to recording the SFHP Agreement.

9.10 Minimum Structural Requirements for SFHP Rental Units - SFHP rental units shall be built to conform to local, state and federal laws, and these additional criteria concerning design, equipment and physical features:

9.10.1

a. Minimum Bathrooms and Floor Area - SFHP rental units shall be constructed according to the minimum requirements for bathrooms and square footage of habitable residential space described below:

Unit Type	Minimum Bathrooms	Minimum Square
Efficiency/Studio	1	700 square feet
1 Bedroom	1	850 square feet
2 Bedrooms	1	1000 square feet
3 Bedrooms	2	1150 square feet
4 Bedrooms	2	1250 square feet

Minimum floor areas of habitable residential space include partitions, closets, heated utility rooms, halls and stairways but exclude attics, porches, unfinished basements, garages and unheated storage space.

b. The applicant may request smaller minimum sizes if it demonstrates, subject to confirmation by the Office of Affordable Housing, that the sizes above are larger than the sizes of the non-SFHP rental units.

9.10.2 Equipment and equipment hookups – Each unit shall, at a minimum, include (a) a new kitchen range and refrigerator, (b) hookups for a clothes washer, dryer or a laundry on site which charges no more than prevailing market prices for use of washers and dryers, (c) central heating systems. Resistance electric heating is not permitted unless the applicable units have exceptionally low heat loads and the City approves this alternate in the SFHP Agreement or otherwise in writing.

9.10.3 Design and location – The proposed design and location of the affordable units shall be reviewed and approved by the Office of Affordable Housing in order to achieve spatial integration with, dispersion throughout and similar exterior architectural and landscaping appearance with other units in the development.

9.11 Required Mix Of Unit Types

9.11.1 So that SFHP Rental Units will serve a wide range of household sizes, the mix of unit types in for-rent SFHP developments shall match the mix of non-SFHP unit types.

9.12 Marketing To and Certifying Tenants for SFHP Rental Units– SFHP developers shall market SFHP rental units or SFHP manufactured home lots in accordance with the following requirements:

9.12.1 An SFHP rental unit may not be marketed and leased to a household which has an income higher that exceeds the defined Income Ranges as set forth in Section 6.

9.12.2 An SFHP Rental Unit may not be marketed and leased to a household which is smaller than the minimum household size established in Section 9.1 unless a smaller household size is approved by the Office of Affordable Housing.

9.12.3 Marketing Materials – Brochures, advertisements and other marketing materials shall clearly state the policies of the SFHP program with regard to pricing of SFHP rental units and tenant eligibility (both of the program in general and the eligibility to buy specific homes).

9.12.4 Leases– Rental property owners and SFHP tenants may execute only leases which are approved for form by the City and which must be provided to and explained to the renter prior to execution of the contract. The disclosure form and lease language must prevent any household that leases a SFHP rental unit from subleasing the unit without the written approval of the City, and describe other terms of occupancy as regulated herein.

9.13 Allocation of SFHP Units– SFHP is established to benefit all residents of the City and, as such, it is the policy of the City that all eligible potential renters have the same opportunity to lease SFHP rental units or SFHP manufactured home lots.

9.13.1 For SFHP developments for which the City or its agent expects immediate effective demand to outstrip the supply, the city or its agent shall establish and maintain an equitable process for allocating rights to lease the homes or manufactured home lots. In developments where the city or its agent has established such a process, the developer shall be required to follow the process when selecting SFHP tenants. For developments other than those described above, the developer shall establish and maintain an equitable process of marketing rental units and manufactured home lots, including waiting lists where demand exceeds supply.

9.13.2 Prior to executing a lease for any SFHP Rental Unit or SFHP manufactured home lot, the prospective SFHP tenant shall be certified as meeting the SFHP requirements described in Section 9.1 by the city or its agent.

9.14 Monitoring by the City of SFHP Leases – SFHP Agreements involving rental housing shall provide for annual monitoring and certification of leased SFHP units by the City or its agent as follows:

9.14.1 Monitoring – The City shall have the right to inspect and photocopy all accounting and occupancy records with regard to any SFHP rental unit. It shall further have the right to contact and interview any SFHP tenant with regard to compliance issues.

9.14.2 Recordkeeping – Owners of SFHP rental properties shall keep adequate records of all payments of rent and data concerning tenants, in accordance with standard practices of the rental housing industry. If disputes arise over what constitutes adequate recordkeeping, the City under its SFHP Agreement shall have the right to require owners to adopt financial and information management practices that are recommended by a certified public accountant and/or property management manuals published by the Institute of Real Estate Management.

9.14.3 Access to records – The City shall have access to all relevant financial and tenant information records during normal business hours, upon providing verbal or written notice and least two business days prior to a proposed monitoring visit.

9.14.4 Certification – Upon completion of this annual monitoring activity, the City shall certify that the property owner is in compliance with the SFHP Agreement, or shall issue findings of non-compliance.

9.14.5 Noncompliance – Upon findings of noncompliance with the SFHP Agreement, the procedures set forth in Section 7.11 shall apply.

9.15 Vacancies and Changes in Income and Household Size After Occupancy - The following policies and procedures shall be included in the lease provisions for SFHP tenants:

9.15.1 Property owners must ensure that tenants are eligible upon initial execution of a lease. If an SFHP tenant vacates the SFHP rental unit or manufactured home lot, the property owner must rent the unit, or another unit, to a tenant in the same Income Range.

9.15.2

a. The property owner shall not be required to certify the income of an SFHP tenant after the initial execution of the lease but may do so at his choosing no more than once every 12 months. If the income of the household has increased to a level at which the household is no longer qualified as a SFHP tenant, the property owner shall allow the tenant to continue to rent the unit or another comparable unit on the property, but the property owner may increase the rent to the prevailing rent for that type and quality of unit on the property. In this instance, the property owner must rent the unit or another unit to a tenant in the same Income Range that the household was in at the time of the initial execution of the lease.

b. If the income of a SFHP tenant has increased so that its household income falls within another Income Range, the property owner may adjust the rent accordingly but must

remain in overall compliance with the SFHP Agreement with respect to the number of required SFHP Rental Units in each Income Range and the required mix of unit types.

9.15.3 If the household size of a SFHP tenant increases, the follow provisions will apply:

a. If the SFHP tenant is eligible for a larger unit, the SFHP tenant may elect to move into the next available unit of appropriate size.

b. The SFHP tenant's rental rate will be adjusted in accordance with the size of the unit being occupied.

9.15.4 Nothing in these procedures shall be construed so as to penalize qualifying renters for changes in family size.

9.16 Term of Compliance - Rental housing developments subject to SFHP (or portions thereof completed and occupied at different times) shall maintain required occupancy and rental rates in SFHP units for a period of 20 years after the date of issuance of a certificate of occupancy for the entire development of portions thereof. This requirement shall be made applicable to successors in title, if any, by means of a deed restriction.

9.17 Allowed and Disallowed Use of Subsidy - ~~Rental rates charged for the SFHP Units may not be achieved by use of rent subsidies from any source other than the property owner, so that, given the scarcity of rent subsidy funds for affordable housing, all SFHP applicants and SFHP developers will be treated equally and fairly. However~~ Prospective tenants who may be income eligible and have rent subsidy, such as a Section 8 Voucher, are eligible to rent a SFHP until however, under no circumstances shall rents in excess of those allowed under the SFHP be charged. SFHP developers may use any type of capital development subsidy (grants, low-interest loans, tax credits, etc) to achieve the required rents.

9.18 Simplified Compliance – Low Income Housing Tax Credit Projects – Notwithstanding any other terms of SFHP or a SFHP Agreement, if rental units in a SFHP development have been awarded tax credits under the federal Low-Income Housing Tax Credit program, such units shall be deemed to comply with all tenant certification and rental requirements of the SFHP program, so long as the project is in good standing with regard to the monitoring standards of that program. For such projects in good standing, the only monitoring required by the City shall be delivery to the Office of Affordable Housing (within 10 days of their receipt) of all copies of the monitoring agency's reports and correspondence with regard to compliance monitoring.

10. TIMING OF COMPLIANCE

Require SFHP Units or alternate means of compliance shall be provided in a timely fashion, as follows:

10.1 Timing of Providing SFHP Units for Sale – In a SFHP development, completed SFHP homes or SFHP manufactured home lots shall be sold in proportion to the sale of unimproved

lots or non-SFHP units. This principle shall be reflected in each SFHP Agreement providing for-sale units.

10.2 Timing of Providing Rental Units – In a SFHP development, the required number of SFHP rental units or SFHP rental manufactured home lots shall be leased as each building or phase of the project is offered for rent. A phase shall be defined as a group of units which are completed and ready for occupancy within a period of one year. This principle shall be reflected in each SFHP agreement providing for on-site rental housing or rental manufactured home lots.

10.3 Earlier Delivery - A developer may sell or lease affordable units earlier than required herein.

10.4 Timing of Alternate Means of Compliance – In developments where the governing body has approved an in-lieu contribution as an alternate means of compliance, the in-lieu contribution shall be due and deliverable after approval of the development request and before the recordation of the SFHP agreement. An applicant may propose an alternative to this timing requirement as part of the request for alternative means of compliance, subject to approval from the governing body.

11. ALTERNATE MEANS OF COMPLIANCE

11.1 Criteria for Allowing Alternate Means of Compliance

11.1.1 One of the goals and purposes of the SFHP program is to foster economic integration by requiring that developers provide required SFHP units and manufactured home lots on the property proposed for development. However, it is recognized that at times this approach may not be feasible for a variety of reasons. ~~do to extreme hardship as defined.~~ In this event, the applicant may seek permission from the governing body to comply with the SFHP through an alternate means of compliance

11.1.2 Any approval of an alternate means of compliance must be based on a finding that one of the following is true: the purposes of this chapter would be better served by implementation of the proposed alternative(s). ~~In determining whether the purposes of this chapter would be better served under the proposed alternative, the city shall consider:~~

a. For SFHP projects of eleven (11) units or more, that the project meets the definition of extreme hardship and that the purposes of this chapter would be better served by implementation of the proposed alternative(s); or

b. For SFHP projects of ten (10) units for fewer, that the purposes of this chapter would be better served by implementation of the proposed alternative(s).

11.1.3 For the purposes of determining whether the purposes of this chapter would be better served under the proposed alternative, the city shall consider all of the following:

a. whether implementation of an alternative would overly concentrate SFHP units within any specific area and if so, the City must reject the alternative unless the undesirable concentration of the SFHP units is offset by other identified benefits that flow from implementation of the alternative in issue; and

b. the extent to which other factors affect the feasibility of prompt construction of the SFHP units on the property, such as costs and delays, the need for appraisal, site design, zoning, infrastructure, clear title, grading and environmental review; and,

c. the potential of leveraging funds for other needed affordable housing programs described in the city's housing plans.

11.2 Allowable Alternate Means of Compliance - The City, in its sole discretion, may select one or a combination of the following alternative means of compliance: off-site construction, cash payment in lieu of constructing or creating the required SFHP units or manufactured home lots, or dedication of land suitable for construction or creation of inclusionary units of equivalent or greater value than would be required for onsite construction.

11.3 Determination of In-Lieu Contribution Values -- The value of the fee in lieu contribution shall be determined by multiplying the number of ~~affordable total~~ total units ~~required~~ required ~~(including any fraction of a unit)~~ in the proposed development by the Affordable Home Price for a 3-Bedroom Unit for Income Range 2.

11.4 Waiver of SFHP requirements -- The governing body, at its sole discretion, may grant a waiver of the SFHP requirements. Any approval of a waiver for a project of any size must be based on the finding that the condition of extreme hardship, as defined, cannot be sufficiently alleviated by the alternate means of compliance described in this Section.

11.4.1 In requesting a waiver of SFHP requirements, the developer shall provide detailed information regarding the proposed development to demonstrate the condition of extreme hardship.

12. RESTRICTIONS ON REALES OF AFFORDABLE FOR-SALE UNITS

The following terms and conditions restricting the resale of SFHP Homes shall be incorporated in the documentation of each sale of a SFHP Home:

12.1 Purpose - In recognition of the consideration granted by the City to SFHP developers, the City shall impose resale controls which are designed to achieve the following purposes:

12.1.1 Reducing the potential for windfall profits by an owner-occupant

12.1.2 Recapturing any such windfall profits for use in an approved housing trust fund that finances affordable housing programs in Santa Fe.

12.1.3 Providing incentives for owner-occupants to resell to lower-income households, which are most in need of affordable housing.

12.1.4 Maintaining the affordability of SFHP homes to subsequent buyers to a reasonable extent, while considering the sellers' rights to reasonable returns on equity.

12.1.5 Preventing speculative profits on SFHP homes gained from renting them to another household (Any rental homes of homes intended for owner occupancy must be approved by the City in writing.)

12.2 Required Resale Control Mechanisms -- The City will require that the following mechanisms be used to control the resale of a SFHP home or SFHP manufactured home lot:

12.2.1 Mortgage liens – Each SFHP Home and SFHP Manufactured Home Lot which is sold at an effective price below market value shall have a second mortgage lien which is payable to the City or its agent. Such a lien will be subordinate to any lien for purchase financing or home equity financing, whether a first, second, third, or other subordinate loan. It will be non-amortizing, carry a rate of zero percent interest and be due only upon resale or conversion of the property to a unit that at the time of resale would not qualify as a SFHP unit. If a unit is sold at a loss, the loan may, at the City's sole discretion, be forgiven to the extent that sale proceeds are insufficient to pay all superior liens and then the City lien. The lien will be assumable by a buyer certified as meeting the eligibility requirements pursuant to Section 8.1.2. Such lien will also be expressly and automatically subordinate to any lien for home equity financing, so long as the lender certifies to the City in writing within 30 days after making the loan that the total of all recorded debt on the property (including the home equity loan and the city loan) does not exceed 95% of the appraised value of the property.

a. The amount of the lien will be the difference between the SFHP price and the initial market value of the SFHP home or SFHP manufactured home lot. In order to provide additional equity to the SFHP buyer at the time of purchase, the initial market value shall be determined as 95% of the appraised value of the SFHP home or SFHP manufactured home lot.

b. Shared appreciation requirements – The City will require a separate agreement which will entitle the City to a share of the appreciation realized in any resale. The city's share of appreciation, if any, will be in proportion to the ratio of the SFHP lien to the initial market value at the time of the SFHP buyer's initial purchase. The value of improvements shall be deducted from the gross appreciation pursuant to Section 13.4. For purpose of example, following are steps used to determine the city's share of appreciation:

1. Determine SFHP Affordable Home Price (example: 3 Bedroom Home in Income Range 3): \$142,000
2. Determine appraised value of SFHP home: \$220,000
3. Determine initial market value of SFHP home: $\$220,000 \times 95\% = \$209,000$
4. Determine amount of lien: $\$209,000 - \$142,000 = \$67,000$

5. Determine city's share of appreciation (proportion of lien to initial market value): $\$67,000/\$209,000 = 32\%$

12.2.2 Right of first refusal requirements – In any lien described in Section 13.2.1 the City shall also require the right of first refusal to repurchase the home for a formula price, or to assign such right to its agent.

12.2.3 The SFHP developer shall pay the City's agent for an appraisal to determine the value of the lien.

12.3 Deductions from gross appreciation for improvements

12.3.1 The SFHP homebuyer may deduct from the gross appreciation the cost of improvements made to the home that add to the value of the home or prolong its useful life. Improvements that are no longer part of the home shall not be deducted from gross appreciation. Repairs that maintain the home in good condition but do not add to its value or prolong its life shall not be deducted from gross appreciation. Examples of improvements that may be deducted from gross appreciation include, but are not limited to:

Additions

Bedroom
Bathroom
Deck
Garage
Porch
Patio

Central air conditioning
Furnace
Duct work
Central humidifier
Filtration system

Lawn & Grounds

Landscaping
Driveway
Walkway
Fence
Retaining wall
Irrigation system

Plumbing

Septic system
Water heater
Soft water system
Filtration system

Miscellaneous

Storm windows, doors
New roof
Central vacuum
Wiring upgrades
Security system

Interior

Improvements

Built-in appliances
Kitchen modernization
Flooring
Wall-to-wall carpeting

Insulation

Attic
Walls, floor
Pipes, ductwork

Heating & Air Conditioning

Heating system

12.3.2 The SFHP homebuyer must provide the Office of Affordable Housing with receipts and other records for all improvements that are deducted from the gross appreciation.

12.4 Deduction from Gross Appreciation for Seller Paid Closing Costs

To help off-set the cost of seller paid closing costs, the SFHP homebuyer may deduct from the gross appreciation an amount equal to seller paid closing costs multiplied by the city's percentage share of appreciation as determined by Section 12.2. Seller paid closing costs shall include costs of owner's title policy, survey or improvement location report, one half of the closing fee, and sales commission.

12.5 Example of Shared Appreciation Calculation

For purposes of example, following is a sample determination of the total amount to be repaid to the city upon resale of an SFHP home, assuming an initial SFHP Price of \$142,000, an initial Appraised Value of \$220,000 and a subsequent resale price of \$300,000:

1. Determine SFHP Affordable Home Price (example: 3 Bedroom Home in Income Range 3): \$142,000
2. Determine appraised value of SFHP home: \$220,000
3. Determine initial market value of SFHP home: $\$220,000 \times 95\% = \$209,000$
4. Determine amount of lien: $\$209,000 - \$142,000 = \$67,000$
5. Determine city's share of appreciation (proportion of lien to initial market value): $\$67,000 / \$209,000 = 32\%$
6. Determine resale price: \$300,000
7. Determine gross appreciation: $\$300,000 - \$209,000 = \$91,000$
8. Determine allowable improvement costs deduction from gross appreciation (example): \$10,000
9. Determine total seller paid closing costs from settlement statement: example \$9,950
10. Determine city's share of seller paid closing costs: $32\% * \$9,950 = \$3,184$
10. Determine net appreciation: $\$91,000 - \$10,000 - \$3,184 = \$77,816$
11. Determine city's share of net appreciation (net appreciation multiplied by city's share of appreciation from step 5): $\$77,816 * 32\% = \$24,901$
12. Determine total repaid to city upon resale (share of appreciation plus initial lien): $\$24,901 + \$67,000 = \$91,901$.

13. INCENTIVES FOR SFHP DEVELOPERS

The following development incentives do not apply to applications for residential developments located outside the City limits that are requesting the extension of or connection to City utilities. Projects located outside the City limits may be entitled to incentives set forth in the applicable land use regulations.

13.1 Fee Waivers Fees for SFHP developments subject to and complying with the SFHP requirements shall be waived or reduced as follows:

13.1.1 Development review and building permit fees shall be waived or reduced proportionately to the number of SFHP units certified by the Office of Affordable Housing.

13.1.2 Impact fees as set forth in Section 14-8.14 SFCC 1987 and utility expansion charges as set forth in Chapters 22 and 25 SFCC 1987 shall be waived or reduced at the time of building permit application for SFHP units.

13.2 Density Bonus -- Any developer who is subject to and complying with SFHP shall be entitled to an additional density bonus of 15 percent over the density allowed by the zoning district.

13.2.1 A density bonus is the right to build the described percentage of residential units, in addition to those that are otherwise allowed by the zoning district, in accordance with the following standards and procedures

a. Base units allowed shall mean the total number of units that would otherwise be allowed by the zoning district.

b. In calculating any bonus unit(s), the base units allowed in the development shall be multiplied by 15 percent. If the result is other than a whole number, the number shall be rounded down if less than 0.5, and rounded up if 0.5 or more.

c. Any such bonus will not require a an amendment to the General Plan amendment or a rezoning or approval by the Governing Body unless appealed pursuant to §14-3.17 SFCC 1987.

d. Except where the Planning Commission may be authorized to grant a variance or waiver as set forth in Chapter 14, such a density increase shall not negate, supersede or limit other City code provisions that limit the number of units that can be built on the site.

14. SEPARABILITY

The provisions of these administrative procedures are separable and the invalidity of any part of these provisions shall not affect the validity of the rest of these provisions.
